CIRCULAR MEMO. No. 2.

FINANCIAL COMMISSIONER'S OFFICE :

Dated Lahore, 15th January 1908.

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

IN this office circular memo. No. 4, dated 30th July 1907, Deputy Commissioners were instructed to refuse to receive cash or notes tendered to them in payment of Government dues and were directed to make over to the Treasury Officer notes and cheques received by post.

2. Cases not unfrequently arise where the Deputy Commissioner as executive head of a district has to act as an agent, trustee or general disburser in respect of monies which are not Government dues. Instances are the remittances made by consuls and administrators of intestate estates in the British Colonies for payment to the heirs of deceased emigrants, and the disbursements which a Deputy Commissioner has, in order to avoid delay and correspondence, sometimes to make on behalf of military officers and regiments after the march of troops through his district.

3. Monies of the nature described in paragraph 2 should, unless they can be disbursed without delay, be treated as revenue deposits under article 245 of the Civil Account Code, the Deputy Commissioner being for the purposes of article 246 the competent authority whose formal order is required to enable the Treasury Officer to credit such items

as deposits. A cash-book should be kept by all officers dealing with receipts of this class, in which should be entered immediately on receipt all the monies received by them in their official capacity, no acknowledgment being sent until the amount is entered in the cash-book on the receipt side. When the money is disposed of either by payment or deposit in the treasury, an entry should be made on the payment side of the cash book, but should not be initialled by the officer concerned till the money is actually disbursed to the proper person or acknowledged by the Treasury Officer, as the case may be.

By order,

R. C. BOLSTER,

Junior Secretary to Financial Commissioner, Punjab.

Appendix A.

No. 104, dated Lahore, 28th January 1908.

From—Messrs. BASANT RAM and Sons, Auditors of Accounts, Lahore,
To—The Secretary, Punjab Public Library, Lahore.

WE have audited the accounts of the Punjab Public Library, Lahore, for the year ending 31st December 1907, and found them correct. In connection therewith we beg to observe the following :—

Receipts.—All receipts have been properly accounted for in the Cash Book. The Receipt Book which has No. 1 to No. 104 has counterfoil No. 11 missing. This is said to be on account of No. 11 being not printed by chance at the time of printing the numbers on the Receipt Book.

Vouchers.—Items of expenditure are properly vouched for except the following :—

	Rs.	A.	P.
16th May 1907.—Paid Mistries Khair Din Rahimullah on account of Almirahs supplied	82	11	0
6th June 1907.— Ditto ditto	180	2	0

The above payments have been made through the Bank. The vouchers supporting the Cash Book have now been cancelled after scrutiny.

Sanction of the Committee.—We have seen that the various items of expenditure have been duly sanctioned for by the Library Committee, but in the following sub-heads there is a slight increase over the budget estimate. On the whole the total expenditure sanctioned by the Committee for the year 1907 was Rs. 18,379, but the actual expenses during the year amount to Rs. 16,555-3-3, so the total expenditure does not exceed the sanctioned budget :—

Students will be present also at lessons given by the teachers of the Central Model School. On such occasions it will be their duty simply to observe what is going on before them, and to take notes of the teacher's manner and method of teaching.

Drawing is a compulsory subject of study in each class, and students are trained for Drawing Masters' Certificates.

Every student is expected to go through one or other of the courses of Physical Training laid down for the Senior or Junior Gymnastic Teachers' Certificate Examinations. Athletic Sports and Games are compulsory. A College Tournament for Athletic Sports and Gymnastics is held early in December each year. The College also sends representative teams to compete in the University Tournament.

ADMISSION TO THE COLLEGE.

Candidates are not admitted below the age of 17. Candidates desiring to join the College should apply to the Principal not later than the 3rd May on forms which can be obtained at the College, and *should be present on the 5th May, when the selection of stipendiaries is made.*

Candidates for admission will be required to produce two certificates,—one of *good character*, signed by the Head Master or the Principal of the institution in which they last studied, and the other of *health*, signed by a Civil Surgeon, or an Assistant Surgeon. Copies of all the University and character certificates must be sent with the application. The original certificates should be submitted at the time of selection.

Forms of the Medical Certificate can be obtained from the Principal.

No one who has formerly attended the College and failed in the examination for a Teacher's Certificate can be admitted during a second session, unless the Principal considers him likely to profit by a further course of training.

Candidates selected for admission will be required to sign an agreement to remain at the College for the full course of training, failing which they must refund the amount of money received by them as stipends. The agreement should be duly attested by the Civil authorities before admission to the College.

Students will be present also at lessons given by the teachers of the Central Model School. On such occasions it will be their duty simply to observe what is going on before them, and to take notes of the teacher's manner and method of teaching.

Drawing is a compulsory subject of study in each class, and students are trained for Drawing Masters' Certificates.

Every student is expected to go through one or other of the courses of Physical Training laid down for the Senior or Junior Gymnastic Teachers' Certificate Examinations. Athletic Sports and Games are compulsory. A College Tournament for Athletic Sports and Gymnastics is held early in December each year. The College also sends representative teams to compete in the University Tournament.

ADMISSION TO THE COLLEGE.

Candidates are not admitted below the age of 17. Candidates desiring to join the College should apply to the Principal not later than the 3rd May on forms which can be obtained at the College, and *should be present on the 4th May, when the selection of stipendiaries is made.*

Candidates for admission will be required to produce two certificates,—one of *good character*, signed by the Head Master or the Principal of the institution in which they last studied, and the other of *health*, signed by a Civil Surgeon, or an Assistant Surgeon. Forms of the Medical Certificate can be obtained from the Principal.

No one who has formerly attended the College and failed in the examination for a teacher's Certificate can be admitted during a second session, unless the Principal considers him likely to profit by a further course of training.

Candidates selected for admission will be required to sign an agreement to remain at the College for the full course of training, failing which they must refund the amount of money received by them as stipends. II.—MEETING, 1908.

Proceedings at the Annual meeting of Life Members and Committee, held on Friday, the 14th February 1908, at 6 P. M.

PRESENT :

1. Bhai Jowahar Singh, *in the Chair.*
2. Rai Sahib Mohan Lal.
3. Khowajah Abdul Majid, B.A.
4. Rai Sahib K. B. Thapar, *Secretary.*

And by proxy, Mr. G. N. Chatterji, Rai Bahadur Mulraj, M.A., and Lala Dhanpat Rai, B.A., L.L.B.

The following statement showing the working of the institution during the year ending 31st December 1907 was laid on the table :—

Among the changes in membership during the year may be noted the nomination by Government of the Hon'ble Mr Justice F. A. Robertson in succession to the Hon'ble Sir Lewis Tupper, K. C. I. E. Major C. G. Parsons succeeded Mr. R. A. Mant on the latter's transfer from Lahore. Mr. J. C. Godley took the place on the Committee vacated by Mr. W. Bell when he left the Province on furlough in October 1907. The life members continued to be represented by the Hon'ble Lala Harkishen Lal and Dr. Hira Lal, L. M. S. The term of office of these gentlemen has expired, but they are eligible for re-election.

Twenty thousand and thirty-one volumes were read or referred to in the Library, and 5,139 taken out by subscribers and life members. The total number of books read or referred to in and out of the Library was, therefore, 25,170.

Sixty annual subscribers and seven life members joined the Library during the year, and the total number of subscribers on the last day of the year was 179, and that of Life Members 118.

Two thousand nine hundred and seventy-three volumes were added to the Library during the year. Of these 341 were presentation copies (including blue books and reports), for which the thanks of the Committee are due to the Governments of India and the Punjab, the Financial Commissioner, Punjab, the Director of Public Instruction, Punjab, the Secretary to Government, Punjab, Public Works Department, Roads and Buildings Branch, C. A. Fleming, Esquire, and the Director, Agricultural Institute, Pusa.

The Committee were able to spend during the year over 11,000 rupees in purchasing books ; and a number of new almirahs were also purchased. Steps have been taken to overhaul the Library with a view to weed out all unsuitable and superfluous books, and to renew books that are either worn out or have got out of date. The work has been entrusted to a Sub-Committee consisting of Mr. G. A. Wathen and the Secretary. It has met several times. The work is still in progress. As a general rule the Sub-Committee meets once a week. The surplus books or books not required for the Library will be offered for sale to the public as well as to Institutions or indviduals likely to require them. All new books received in the Library are kept for the first six months in Almirahs placed in the Entrance room where they are fully displayed. The purchases of books made during the year have enabled the Committee to strengthen the several departments of the Library. In making selections for purchase, books which were more suitable for the Punjab University Library, which is also being overhauled and added to, were not included in our lists The authorities of the latter Library have, as a general rule, not gone in for books which are already in the Punjab Public Library. This arrangement has enabled both the institutions to economise the funds at their disposal.

The Committee have subscribed for a number of periodicals, literary and general, and arrangements have been made to make them available to the Public for perusal and consultation in the Library.

The Committee met 7 times during the year to transact current and other business.

Students will be present also at lessons given by the teachers of the Central Model School. On such occasions it will be their duty simply to observe what is going on before them, and to take notes of the teacher's manner and method of teaching.

Drawing is a compulsory subject of study in each class, and students are trained for Drawing Masters' Certificates.

Every student is expected to go through one or other of the courses of Physical Training laid down for the Senior or Junior Gymnastic Teachers' Certificate Examinations. Athletic Sports and Games are compulsory. A College Tournament for Athletic Sports and Gymnastics is held early in December each year. The College also sends representative teams to compete in the University Tournament.

ADMISSION TO THE COLLEGE.

Candidates are not admitted below the age of 17. Candidates desiring to join the College should apply to the Principal not later than the 3rd May on forms which can be obtained at the College, and *should be present on the 4th May, when the selection of stipendiaries is made.*

Candidates for admission will be required to produce two certificates,—one of *good character*, signed by the Head Master or the Principal of the institution in which they last studied, and the other of *health*, signed by a Civil Surgeon, or an Assistant Surgeon. Copies of all the University and character certificates must be sent with the application. The original certificates should be submitted at the time of selection.

Forms of the Medical Certificate can be obtained from the Principal.

No one who has formerly attended the College and failed in the examination for a Teacher's Certificate can be admitted during a second session, unless the Principal considers him likely to profit by a further course of training.

Candidates selected for admission will be required to sign an agreement to remain at the College for the full course of training, failing which they must refund the amount of money received by them as stipends. THE BOARDNG-HOUSE.

In the boarding-house there are eight dormitories and ninety-eight cubicles, accommodating 161 boarders in all. Each boarder is supplied with a bed, a table, a table-cover, a stool, a clothes-press or box, and a book-shelf. The fee is one rupee per mensem.

There are nine kitchens for Hindus and two for Muhammadans. The dining-rooms are furnished with tables, benches, chaukis, punkhas and lamps. One kitchen and two kitchen servants are provided for each group of fifteen students. These elect their own Mess President, and the cost of living depends on the tastes and wishes of the students themselves. The average cost may be taken as about eight rupees a month. The neces-

sary utensils are supplied. Attached to the boarding-house are a confectioner's shop, a provision shop, and a shop for fruit and vegetables.

The doors are closed at 9-30 in winter and at 10 in summer; after look-up no one is allowed to enter or leave the boarding-house.

The College Athletic Sports are held annually, prizes being awarded to the winners both in the Open and Close events.

SCHOLARSHIPS AND PRIZES.

Three House Examinations are held during the year, and prizes in all subjects are awarded annually to the students who distinguish themselves. After each examination a Progress report is sent to the father or guardian of every student.

The Nabha-Jind Scholarship can be held only at this College.

The Arnold Gold Medal presented by the Anjuman-i-Islamia is awarded to the Government College student who stands highest in Persian in the B. A. Examination.

Rupees eight thousand have already been subscribed to endow a Permanent Prize Fund.

THE TUTORIAL SYSTEM.

On entering the College each student is placed under the special charge of a Professor, who acts as his tutor. By this means tutorial groups are formed, which meet together once a week for discussion, readings, recitations, and such like work. Games are managed on the group system, there being tournaments in cricket, football, hockey and tennis. Challenge cups have been presented for this purpose by various friends of the College, and are held by the winning groups.

THE LIBRARY.

The College Library contains over 10,000 books. Each student pays a library deposit of Rs. 5, which is returned on his leaving the College. Two books are allowed out at a time.

COLLEGE SOCIETIES AND CLUBS.

All members of the College belong to the Union Club, which holds meetings for Debates or Speeches or Essays every week; the Club is divided into two sections, the Senior and the Junior; once a month there is a combined meeting of the two sections; in the other weeks they are separated in order that the junior students may have greater opportunities of learning the art of public speaking and reading. Various newspapers and magazines are supplied.

There is a Dramatic Club under the presidency of Professor Brett, which produces several dramas in the course of the year.

There is also a Literary Society, the membership of which is limited.

An Historical Club under the management of the Professor of History meets fortnightly to discuss questions of History and Economics.

The Graduates' Union consisting of Past Graduates of the College has quarterly reunions at the College, when there are usually games and a performance by the Dramatic Club.

THE COLLEGE MAGAZINE.

The College Magazine, known as "The Ravi," is published two or three times in each term. The annual subscription is Re. 1-8-0.

COLLEGE TERMS.

The College year begins on the 1st of May.

The classes assemble after the long vacation on October 1st. The winter term lasts till the Christmas holidays; the spring term from January till Easter; and the summer term from 1st May till July 15th.

The University requires students to present themselves *personally* and to attend the College. A student has not joined the College who has merely sent a letter or telegram and the fees.

Exceptions to this rule can be made *only* by the Syndicate, and are not likely to be made except in cases of necessity.

There are many advantages in joining early. Students are assigned numbers when they join, and in class sit in the order of their numbers. Those who join early get the first numbers and the front seats, and can therefore see and hear much better than the belated students on the back benches.

All students are expected to join on the 1st of May.

Students who have failed, and who wish to migrate, must join on the same date as new students.

Students who have failed and who wish to rejoin their own College, must join on the same date as new students, unless the Principal is satisfied that they *could not* join *on* that date. Students who come late can be admitted *only* by the special permission of the Syndicate. This permission (except in the case of students re-joining their own College after failing) *cannot* be given by the Principal.

FINANCIAL COMMISSIONER'S OFFICE.

CIRCULAR LETTER No. 3.

FINANCIAL COMMISSIONER'S OFFICE:

Dated Lahore, 21st March 1908.

FROM

E. R. ABBOTT, ESQUIRE,

Senior Secretary to the Financial Commissioner, Punjab,

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

SIR,

I AM directed to explain to you that doubts have arisen as to whether land revenue could legally be remitted by currency notes through the post, and that, though it has not been finally decided that payment by notes in any form should be permanently prohibited, it has been found advisable, in view of the serious danger of embezzlement incurred in remittance by notes, to restrict payments by headmen for the present to the recognised methods.

2. Land Revenue Rule 181 (*i*) has accordingly been amended by the insertion of the words "personally or by revenue money order" after the words "pay the same". The effect of this amendment is that payments by headmen of land revenue and sums recoverable as land revenue, for the collection of which they are responsible, otherwise than personally or by revenue money order is now illegal.

I have, &c.,

E. R. ABBOTT,

Senior Secretary to the Financial Commissioner, Punjab.

Besides the above, during the course of the Session, every student of the Training College will devote a certain definite time, to be fixed by the Principal, to actual teaching in the Central Model School. Students will be present also at lessons given by the teachers of the Central Model School. On such occasions it will be their duty simply to observe what is going on before them, and to take notes of the teacher's manner and method of teaching.

Drawing is a compulsory subject of study in each class, and students are trained for Drawing Masters' Certificates.

Every student is expected to go through one or other of the courses of Physical Training laid down for the Senior or Junior Gymnastic Teachers' Certificate Examinations. Athletic Sports and Games are compulsory. A College Tournament for Athletic Sports and Gymnastics is held early in December each year. The College also sends representative teams to compete in the University Tournament.

ADMISSION TO THE COLLEGE.

Candidates are not admitted below the age of 17. Candidates desiring to join the College should apply to the Principal not later than the 3rd May on forms which can be obtained at the College, and ***should be present on the 4th May, when the selection of stipendiaries is made.***

Candidates for admission will be required to produce two certificates,—one of *good character*, signed by the Head Master or the Principal of the institution in which they last studied, and the other of *health*, signed by a Civil Surgeon, or an Assistant Surgeon. Copies of all the University and character certificates must be sent with the application. The original certificates should be submitted at the time of selection.

Forms of the Medical Certificate can be obtained from the Principal.

No one who has formerly attended the College and failed in the examination for a Teacher's Certificate can be admitted during a second session, unless the Principal considers him likely to profit by a further course of training.

Candidates selected for admission will be required to sign an agreement to remain at the College for the full course of training, failing which they must refund the amount of money received by them as stipends. The agreement should be duly attested by the Civil authorities before admission to the College.

THE BOARDING-HOUSE.

In the boarding-house there are eight dormitories and ninety-eight cubicles, accommodating 161 boarders in all. Each boarder is supplied with a bed, a table, a table-cover, a stool, a clothes-press or box, and a book-shelf. The fee is one rupee per mensem.

There are nine kitchens for Hindus and two for Muhammadans. The dining-rooms are furnished with tables, benches, chaukis, punkhas and lamps. One kitchen and two kitchen servants are provided for each group of fifteen students. These elect their own Mess President, and the cost of living depends on the tastes and wishes of the students themselves. The average cost may be taken as about eight rupees a month. The neces-

sary utensils are supplied. Attached to the boarding-house are a confectioner's shop, a provision shop, and a shop for fruit and vegetables.

The doors are closed at 9-30 in winter and at 10 in summer; after look-up no one is allowed to enter or leave the boarding-house.

GYMNASIUM.

All students are required to take exercise in the Gymnasium for one period each day. An Instructor holding a first class Army certificate superintends their work.

The College Athletic Sports are held annually, prizes being awarded to the winners both in the Open and Close events.

SCHOLARSHIPS AND PRIZES.

Three House Examinations are held during the year, and prizes in all subjects are awarded annually to the students who distinguish themselves. After each examination a Progress report is sent to the father or guardian of every student.

The Nabha-Jind Scholarship can be held only at this College.

The Arnold Gold Medal presented by the Anjuman-i-Islamia is awarded to the Government College student who stands highest in Persian in the B. A. Examination.

Rupees eight thousand have already been subscribed to endow a Permanent Prize Fund.

THE TUTORIAL SYSTEM.

On entering the College each student is placed under the special charge of a Professor, who acts as his tutor. By this means tutorial groups are formed, which meet together once a week for discussion, readings, recitations, and such like work. Games are managed on the group system, there being tournaments in cricket, football, hockey and tennis. Challenge cups have been presented for this purpose by various friends of the College, and are held by the winning groups.

THE LIBRARY.

The College Library contains over 10,000 books. Each student pays a library deposit of Rs. 5, which is returned on his leaving the College. Two books are allowed out at a time.

COLLEGE SOCIETIES AND CLUBS.

All members of the College belong to the Union Club, which holds meetings for Debates or Speeches or Essays every week; the Club is divided into two sections, the Senior and the Junior; once a month there is a combined meeting of the two sections; in the other weeks they are separated in order that the junior students may have greater opportunities of learning the art of public speaking and reading. Various newspapers and magazines are supplied.

There is a Dramatic Club under the presidency of Professor Brett, which produces several dramas in the course of the year.

There is also a Literary Society, the membership of which is limited.

An Historical Club under the management of the Professor of History meets fortnightly to discuss questions of History and Economics.

The Graduates' Union consisting of Past Graduates of the College has quarterly reunions at the College, when there are usually games and a performance by the Dramatic Club.

THE COLLEGE MAGAZINE.

The College Magazine, known as "The Ravi," is published two or three times in each term. The annual subscription is Re. 1-8-0.

COLLEGE TERMS.

The College year begins on the 1st of May.

The classes assemble after the long vacation on October 1st. The winter term lasts till the Christmas holidays; the spring term from January till Easter; and the summer term from 1st May till July 15th.

The University requires students to present themselves *personally* and to attend the College. A student has not joined the College who has merely sent a letter or telegram and the fees.

Exceptions to this rule can be made *only* by the Syndicate, and are not likely to be made except in cases of necessity.

There are many advantages in joining early. Students are assigned numbers when they join, and in class sit in the order of their numbers. Those who join early get the first numbers and the front seats, and can therefore see and hear much better than the belated students on the back benches.

All students are expected to join on the 1st of May.

Students who have failed, and who wish to migrate, must join on the same date as new students.

Students who have failed and who wish to rejoin their own College, must join on the same date as new students, unless the Principal is satisfied that they *could not* join *on* that date. Students who come late can be admitted *only* by the special permission of the Syndicate. This permission (except in the case of students re-joining their own College after failing) *cannot* be given by the Principal.

Students will be present also at lessons given by the teachers of the Central Model School. On such occasions it will be their duty simply to observe what is going on before them, and to take notes of the teacher's manner and method of teaching.

Drawing is a compulsory subject of study in each class, and students are trained for Drawing Masters' Certificates.

Every student is expected to go through one or other of the courses of Physical Training laid down for the Senior or Junior Gymnastic Teachers' Certificate Examinations. Athletic Sports and Games are compulsory. A College Tournament for Athletic Sports and Gymnastics is held early in December each year. The College also sends representative teams to compete in the University Tournament.

ADMISSION TO THE COLLEGE.

Candidates are not admitted below the age of 17. Candidates desiring to join the College should apply to the Principal not later than the 3rd May on forms which can be obtained at the College, and *should be present on the 4th May, when the selection of stipendiaries is made.*

Candidates for admission will be required to produce two certificates,—one of *good character*, signed by the Head Master or the Principal of the institution in which they last studied, and the other of *health*, signed by a Civil Surgeon, or an Assistant Surgeon. Copies of all the University and character certificates must be sent with the application. The original certificates should be submitted at the time of selection.

Forms of the Medical Certificate can be obtained from the Principal.

No one who has formerly attended the College and failed in the examination for a Teacher's Certificate can be admitted during a second session, unless the Principal considers him likely to profit by a further course of training.

Candidates selected for admission will be required to sign an agreement to remain at the College for the full course of training, failing which they must refund the amount of money received by them as stipends. Classes ten rupees in English and Mathematics, and twelve rupees in other subjects. Fees are payable for ten months in each year. The Principal has power to remit half of the fee in the case of poor students.

There is a general games' subscription of eight annas a month; cricket, eight annas; other games, four annas each. All students are required to pay the subscription for one game at least.

THE BOARDNG-HOUSE.

In the boarding-house there are eight dormitories and ninety-eight cubicles, accommodating 161 boarders in all. Each boarder is supplied with a bed, a table, a table-cover, a stool, a clothes-press or box, and a book-shelf. The fee is one rupee per mensem.

There are nine kitchens for Hindus and two for Muhammadans. The dining-rooms are furnished with tables, benches, chaukis, punkhas and lamps. One kitchen and two kitchen servants are provided for each group of fifteen students. These elect their own Mess President, and the cost of living depends on the tastes and wishes of the students themselves. The average cost may be taken as about eight rupees a month. The neces-

sary utensils are supplied. Attached to the boarding-house are a confectioner's shop, a provision shop, and a shop for fruit and vegetables.

The doors are closed at 9-30 in winter and at 10 in summer; after lock-up no one is allowed to enter or leave the boarding-house.

Medical attendance is free.

GYMNASIUM.

All students are required to take exercise in the Gymnasium for one period each day. An Instructor holding a first class Army certificate superintends their work.

GAMES.

There are three tennis courts and two grounds each for cricket, football and hockey. These games are played regularly, and every student is expected to take part in at least one.

The College Athletic Sports are held annually, prizes being awarded to the winners both in the Open and Close events.

SCHOLARSHIPS AND PRIZES.

Three House Examinations are held during the year, and prizes in all subjects are awarded annually to the students who distinguish themselves. After each examination a Progress report is sent to the father or guardian of every student.

The Nabha-Jind Scholarship can be held only at this College.

The Arnold Gold Medal presented by the Anjuman-i-Islamia is awarded to the Government College student who stands highest in Persian in the B. A. Examination.

Rupees eight thousand have already been subscribed to endow a Permanent Prize Fund.

THE TUTORIAL SYSTEM.

On entering the College each student is placed under the special charge of a Professor, who acts as his tutor. By this means tutorial groups are formed, which meet together once a week for discussion, readings, recitations, and such like work. Games are managed on the group system, there being tournaments in cricket, football, hockey and tennis. Challenge cups have been presented for this purpose by various friends of the College, and are held by the winning groups.

THE LIBRARY.

The College Library contains over 10,000 books. Each student pays a library deposit of Rs. 5, which is returned on his leaving the College. Two books are allowed out at a time.

COLLEGE SOCIETIES AND CLUBS.

All members of the College belong to the Union Club, which holds meetings for Debates or Speeches or Essays every week; the Club is divided into two sections, the Senior and the Junior; once a month there is a combined meeting of the two sections; in the other weeks they are separated in order that the junior students may have greater opportunities of learning the art of public speaking and reading. Various newspapers and magazines are supplied.

There is a Dramatic Club under the presidency of Professor Brett, which produces several dramas in the course of the year.

There is also a Literary Society, the membership of which is limited.

An Historical Club under the management of the Professor of History meets fortnightly to discuss questions of History and Economics.

The Graduates' Union consisting of Past Graduates of the College has quarterly reunions at the College, when there are usually games and a performance by the Dramatic Club.

THE COLLEGE MAGAZINE.

The College Magazine, known as "The Ravi," is published two or three times in each term. The annual subscription is Re. 1-8-0.

COLLEGE TERMS.

The College year begins on the 1st of May.

The classes assemble after the long vacation on October 1st. The winter term lasts till the Christmas holidays; the spring term from January till Easter; and the summer term from 1st May till July 15th.

The University requires students to present themselves *personally* and to attend the College. A student has not joined the College who has merely sent a letter or telegram and the fees.

Exceptions to this rule can be made *only* by the Syndicate, and are not likely to be made except in cases of necessity.

There are many advantages in joining early. Students are assigned numbers when they join, and in class sit in the order of their numbers. Those who join early get the first numbers and the front seats, and can therefore see and hear much better than the belated students on the back benches.

All students are expected to join on the 1st of May.

Students who have failed, and who wish to migrate, must join on the same date as new students.

Students who have failed and who wish to rejoin their own College, must join on the same date as new students unless the Principal is satisfied that they *could not* join on that date. Students who come late can be admitted *only* by the special permission of the Syndicate. This permission (except in the case of students re-joining their own College after failing) *cannot* be given by the Principal.

Classes ten rupees in English and Mathematics, and twelve rupees in other subjects. Fees are payable for ten months in each year. The Principal has power to remit half of the fee in the case of poor students.

There is a general games' subscription of eight annas a month; cricket, eight annas; other games, four annas each. All students are required to pay the subscription for one game at least.

THE BOARDNG-HOUSE.

In the boarding-house there are eight dormitories and ninety-eight cubicles, accommodating 161 boarders in all. Each boarder is supplied with a bed, a table, a table-cover, a stool, a clothes-press or box, and a book-shelf. The fee is one rupee per mensem.

There are nine kitchens for Hindus and two for Muhammadans. The dining-rooms are furnished with tables, benches, chaukis, punkhas and lamps. One kitchen and two kitchen servants are provided for each group of fifteen students. These elect their own Mess President, and the cost of living depends on the tastes and wishes of the students themselves. The average cost may be taken as about eight rupees a month. The neces-

sary utensils are supplied. Attached to the boarding-house are a confectioner's shop, a provision shop, and a shop for fruit and vegetables.

The doors are closed at 9-30 in winter and at 10 in summer; after look-up no one is allowed to enter or leave the boarding-house.

Medical attendance is free.

GYMNASIUM.

All students are required to take exercise in the Gymnasium for one period each day. An Instructor holding a first class Army certificate superintends their work.

GAMES.

There are three tennis courts and two grounds each for cricket, football and hockey. These games are played regularly, and every student is expected to take part in at least one.

The College Athletic Sports are held annually, prizes being awarded to the winners both in the Open and Close events.

SCHOLARSHIPS AND PRIZES.

Three House Examinations are held during the year, and prizes in all subjects are awarded annually to the students who distinguish themselves. After each examination a Progress report is sent to the father or guardian of every student.

The Nabha-Jind Scholarship can be held only at this College.

The Arnold Gold Medal presented by the Anjuman-i-Islamia is awarded to the Government College student who stands highest in Persian in the B. A. Examination.

Rupees eight thousand have already been subscribed to endow a Permanent Prize Fund.

THE TUTORIAL SYSTEM.

On entering the College each student is placed under the special charge of a Professor, who acts as his tutor. By this means tutorial groups are formed, which meet together once a week for discussion, readings, recitations, and such like work. Games are managed on the group system, there being tournaments in cricket, football, hockey and tennis. Challenge cups have been presented for this purpose by various friends of the College, and are held by the winning groups.

THE LIBRARY.

The College Library contains over 10,000 books. Each student pays a library deposit of Rs. 5, which is returned on his leaving the College. Two books are allowed out at a time.

COLLEGE SOCIETIES AND CLUBS.

All members of the College belong to the Union Club, which holds meetings for Debates or Speeches or Essays every week; the Club is divided into two sections, the Senior and the Junior; once a month there is a combined meeting of the two sections; in the other weeks they are separated in order that the junior students may have greater opportunities of learning the art of public speaking and reading. Various newspapers and magazines are supplied.

There is a Dramatic Club under the presidency of Professor Brett, which produces several dramas in the course of the year.

There is also a Literary Society, the membership of which is limited.

An Historical Club under the management of the Professor of History meets fortnightly to discuss questions of History and Economics.

The Graduates' Union consisting of Past Graduates of the College has quarterly reunions at the College, when there are usually games and a performance by the Dramatic Club.

THE COLLEGE MAGAZINE.

The College Magazine, known as "The Ravi," is published two or three times in each term. The annual subscription is Re. 1-8-0.

COLLEGE TERMS.

The College year begins on the 1st of May.

The classes assemble after the long vacation on October 1st. The winter term lasts till the Christmas holidays; the spring term from January till Easter; and the summer term from 1st May till July 15th.

The University requires students to present themselves *personally* and to attend the College. A student has not joined the College who has merely sent a letter or telegram and the fees.

Exceptions to this rule can be made *only* by the Syndicate, and are not likely to be made except in cases of necessity.

There are many advantages in joining early. Students are assigned numbers when they join, and in class sit in the order of their numbers. Those who join early get the first numbers and the front seats, and can therefore see and hear much better than the belated students on the back benches.

All students are expected to join on the 1st of May.

Students who have failed, and who wish to migrate, must join on the same date as new students.

Students who have failed and who wish to rejoin their own College, must join on the same date as new students unless the Principal is satisfied that they *could not* join *on* that date. Students who come late can be admitted *only* by the special permission of the Syndicate. This permission (except in the case of students re-joining their own College after failing) *cannot* be given by the Principal.

Besides the above, during the course of the Session, every student of the Training College will devote a certain definite time, to be fixed by the Principal, to actual teaching in the Central Model School. Students will be present also at lessons given by the teachers of the Central Model School. On such occasions it will be their duty simply to observe what is going on before them, and to take notes of the teacher's manner and method of teaching.

Drawing is a compulsory subject of study in each class, and students are trained for Drawing Masters' Certificates.

Every student is expected to go through one or other of the courses of Physical Training laid down for the Senior or Junior Gymnastic Teachers' Certificate Examinations. Athletic Sports and Games are compulsory. A College Tournament for Athletic Sports and Gymnastics is held early in December each year. The College also sends representative teams to compete in the University Tournament.

ADMISSION TO THE COLLEGE.

Candidates are not admitted below the age of 17. Candidates desiring to join the College should apply to the Principal not later than the 3rd May on forms which can be obtained at the College, and *should be present on the 4th May, when the selection of stipendiaries is made.*

Forms of the Medical Certificate can be obtained from the Principal.

No one who has formerly attended the College and failed in the examination for a Teacher's Certificate can be admitted during a second session, unless the Principal considers him likely to profit by a further course of training.

Candidates selected for admission will be required to sign an agreement to remain at the College for the full course of training, failing which they must refund the amount of money received by them as stipends. THE BOARDNG-HOUSE.

In the boarding-house there are eight dormitories and ninety-eight cubicles, accommodating 161 boarders in all. Each boarder is supplied with a bed, a table, a table-cover, a stool, a clothes-press or box, and a book-shelf. The fee is one rupee per mensem.

There are nine kitchens for Hindus and two for Muhammadans. The dining-rooms are furnished with tables, benches, chaukis, punkhas and lamps. One kitchen and two kitchen servants are provided for each group of fifteen students. These elect their own Mess President, and the cost of living depends on the tastes and wishes of the students themselves. The average cost may be taken as about eight rupees a month. The neces-

sary utensils are supplied. Attached to the boarding-house are a confectioner's shop, a provision shop, and a shop for fruit and vegetables.

The doors are closed at 9-30 in winter and at 10 in summer; after lock-up no one is allowed to enter or leave the boarding-house.

The College Athletic Sports are held annually, prizes being awarded to the winners both in the Open and Close events.

The Nabha-Jind Scholarship can be held only at this College.

The Arnold Gold Medal presented by the Anjuman-i-Islamia is awarded to the Government College student who stands highest in Persian in the B. A. Examination.

Rupees eight thousand have already been subscribed to endow a Permanent Prize Fund.

THE TUTORIAL SYSTEM.

On entering the College each student is placed under the special charge of a Professor, who acts as his tutor. By this means tutorial groups are formed, which meet together once a week for discussion, readings, recitations, and such like work. Games are managed on the group system, there being tournaments in cricket, football, hockey and tennis. Challenge cups have been presented for this purpose by various friends of the College, and are held by the winning groups.

COLLEGE SOCIETIES AND CLUBS.

All members of the College belong to the Union Club, which holds meetings for Debates or Speeches or Essays every week; the Club is divided into two sections, the Senior and the Junior; once a month there is a combined meeting of the two sections; in the other weeks they are separated in order that the junior students may have greater opportunities of learning the art of public speaking and reading. Various newspapers and magazines are supplied.

There is a Dramatic Club under the presidency of Professor Brett, which produces several dramas in the course of the year.

There is also a Literary Society, the membership of which is limited.

An Historical Club under the management of the Professor of History meets fortnightly to discuss questions of History and Economics.

The Graduates' Union consisting of Past Graduates of the College has quarterly reunions at the College, when there are usually games and a performance by the Dramatic Club.

THE COLLEGE MAGAZINE.

The College Magazine, known as "The Ravi," is published two or three times in each term. The annual subscription is Re. 1-8-0.

COLLEGE TERMS.

The College year begins on the 1st of May.

The classes assemble after the long vacation on October 1st. The winter term lasts till the Christmas holidays; the spring term from January till Easter; and the summer term from 1st May till July 15th.

The University requires students to present themselves *personally* and to attend the College. A student has not joined the College who has merely sent a letter or telegram and the fees.

Exceptions to this rule can be made *only* by the Syndicate, and are not likely to be made except in cases of necessity.

There are many advantages in joining early. Students are assigned numbers when they join, and in class sit in the order of their numbers. Those who join early get the first numbers and the front seats, and can therefore see and hear much better than the belated students on the back benches.

All students are expected to join on the 1st of May.

Students who have failed, and who wish to migrate, must join on the same date as new students.

Students who have failed and who wish to rejoin their own College, must join on the same date as new students unless the Principal is satisfied that they *could not* join on that date. Students who come late can be admitted *only* by the special permission of the Syndicate. This permission (except in the case of students re-joining their own College after failing) *cannot* be given by the Principal.

When all had been presented, His Honour the Chancellor delivered the following address—

MR. VICE-CHANCELLOR AND GENTLEMEN,—Before I invite the Vice-Chancellor to deliver his formal address to Convocation, I should like to say a few informal words to you myself. And first, I wish to tell you all what real pleasure it gives me to renew my connection with the Panjab University. In 1884 and 1885, as officiating Director, Public Instruction, I took an active part in its proceedings; and those of you who can carry your memories back so far will remember that the times were strenuous. I am glad to know that I am entering upon my new term of office under more peaceful auspices.

Since then, the University has steadily developed and has done good and useful work for 20 years, which culminated in the passing of the Universities Act of 1904. There were no crying evils, no urgent need for reform in our University. But it is well that, after a substantial term of years, an Institution should overhaul its machinery and take stock of its position; and I believe that most of you will agree that the changes which have followed upon the passing of that Act have resulted in increased efficiency. To my mind, the most important of them is the provisions for the affiliation and inspection of colleges which have brought the University into closer and more sympathetic touch with its constituent institutions, and have enabled it to exercise a direct influence over them. I am glad to learn that the periodical inspections or which the Act provides have been conducted by the University, and received by the colleges, in a wholly admirable spirit, and that the latter have regarded the Inspecting officers in the light, not of hostile critics but of friendly advisers, and have invited and welcomed their suggestions. So long as that spirit is maintained, nothing but good can result.

And now, I should like to say a few words to you young men, and specially to those of you who have finished your college course and are going out into the world.

Some years ago, a young man who desired employment under Government came to me and said: "Sir, I have completed my education I have passed the Middle School Examination." You laugh at that; and of course it was a very absurd thing to say. But what I want to impress upon you is that, in a sense, it would have been only slightly less absurd if he had said "I have passed the B A. Examination," or even if he had said "I have passed the M.A. Examination." I want to make you realise, if I can, that your real education, the education of life, is only now about to begin. No doubt you will say:—"But what have we been doing these last 10 or 12 years, at school and at college? Was not that education? Of course. Of course it was; it was education which will be of greatest value to you hereafter; it was education upon the nature of which and upon the degree in which you have profited by it, your success in life will very largely depend; and you are much to be congratulated upon having received it. But what I want you to understand is, that after all, this education which you have just completed is only the preliminary training which has fitted you for what I have called your real education, the education of life and of the work-a-day world. Hitherto you have dealt with books; you will now have to deal with things—with the hard facts and stern realities of life. Hitherto you have been sheltered within the four walls of a college, and your footsteps have been guided by wise and careful hands; you are now about to step forth into the world and fight your way as best you can, by your own unaided efforts. Hitherto you have competed with boys; in future you will compete with men.

You will find that before many years have passed, you will have forgotten much of the book-knowledge of which you are so full to-day But that does not mean that all the hard work which you have done in these past few years has been labour wasted; for the mere book knowledge that you have acquired, and much of which you will forget, is the very least important part of what you have gained; though, since it is the only part that can readily be tested by examination, you not unnaturally attach an exaggerated importance to it. What you have gained that will be of most real value to you, and will most help you in your way through life—what you have gained, and I hope, will never lose—is something far higher than mere book-knowledge; it is self-discipline, the habit of industry, and the power of learning. The muscles of your mind—if I may be allowed the metaphor—the muscles of your mind and the fibres of your character have been trained and strengthened by the mental and moral discipline which you have undergone, just as the muscles and fibres of the body are trained and strengthened by physical exercise You *have learned how to learn*, and that is the most valuable of all lessons. And now that you are about to enter the real school—the school of the world—and to begin your real education—the education of life—try, not only to learn as much as you can and as quickly as you can, but also to go on learning as long as you can; to cease learning, only when you cease living; for he who learns longest learns most, and the man whose mind dries up or crystallises so that he can no longer take in new ideas—so that he can no longer learn from experience—has ceased to grow and might as well be dead. In very very truth he is dead, intellectually.

And now one moment longer, while I draw a very short moral from what I have just said. I want this idea which I have been trying to impress upon you, I want the feeling that you are only just about to begin your real education in life, and that you are still very ignorant of much that it is most important for you to know, to make you—well! I was going to say, humble; but perhaps that is not exactly the right word. I suppose that every clever youngster has a pride in his brains and in his education, which is natural enough, and not altogether unwholesome. But in India particularly I think, where a good education is not so general as it is in England, a young man who has done well at college is apt to look down upon those who are not so clever as he is, and who have not enjoyed the same advantages that he has, I hope you will *never* do that.

What matters most in life is, not book-learning, but knowledge of the world and of men, not cleverness, but character and judgment. You will find that men who have not half the brains that you have, and who have not learnt one-tenth part of what you have been taught, will go right when you, for all your cleverness, go wrong, simply because they have studied in that great school of the world and of life in which you are only beginners. One of the commonest mistakes that young folks make is, to think that when they have proved a thing by logic, there is nothing more to be said on the subject. The man of the world, the man of experience, will brush aside your logic and tell you that you are wrong. Very likely he will not be able to explain why; but he will be right all the same, for he knows, and you do not; he has learned from experience, and you have not.

Your brains are the weapons with which you will hew your way through the world, and much depends upon their quality; but if they are good ones, it was not you who made them. The education which you have received will be a precious possession to you for all your life long; but if it has been a good one, you owe it, not to yourselves, but to your parents and your teachers. Never let your brains and your education, however good they may be, tempt you to look down upon those who have less than you. And above all, never undervalue experience, for in it is the root of wisdom.

Then the Vice-Chancellor being called upon delivered the following address—

MR. CHANCELLOR, FELLOWS OF THE UNIVERSITY AND LADIES AND GENTLEMEN,

In reviewing the operations of the University during the part academical year, I shall first take up the question of the passess at the various examinations as compared with those of the previous year.

In the Examinations of the Arts Faculty there was a slight increase in the number of candidates and in passes of the Matriculation Examination—3,550 having appeared in it in 1907, of whom 1,682 passed against 3,462 candidates and 1,429 passes in 1906.

In the Intermediate Examination the candidates were 674 in 1907 and 645 in 1906, but the same number, 311, passed in both years.

In the B. A. Examination the figures are 323 candidates and 98 passes against 330 candidates and 120 passes in the previous year; in the B. T. Examination 12 and 10 respectively, against 13 and 8; and in M. A. Examination 50 and 18 against 48 and 15.

The candidates at the Examinations of the Oriental Faculty were as usual few, but there was a slight increase in 1907, the figures being 8 candidates and 8 passes in the Matriculation Examination in 1907 against 8 candidates and 6 passes in 1906. In the Intermediate Examination there were 5 candidates and no passes in 1907 against 2 candidates and 1 pass in 1906. In the B. O. L. Examination 4 appeared in 1907, of whom three passed, while only one appeared in the year before who failed. No one appeared at the M. O. L. Examination in 1907, but there was one candidate in 1906 who passed.

The Examinations in Oriental Languages showed a general falling off, which was rather considerable in the first examinations in Sanskrit, Arabic and Persian.

The Examinations of the other Faculties call for no special comment. I am glad to find that the increase of candidates at the Examinations of the Science Faculty, though still small, show a satisfactory progressive increase from year to year.

The percentage of passes in the various subjects of the different Examinations call for no remark, but in the Bachelor of Arts Examination it fell from 67·08 in 1906 to 49·3 in 1907 in Persian and from 63·4 to 45·5 in English. These failures naturally excited attention, and at the instance of His Honour the Chancellor the Syndicate went very fully into the cause. Upon a comparison of the results of the preceding five years, carefully prepared by the Registrar, it was found that this was nothing but a fluctuation that recurs periodically and that no special measures were required in the interests of the candidates who failed. In this view the Chancellor concurred.

The action taken by this University to carry out the provisions of the New University Act was reviewed by the Chancellor in his speech at the last Convocation, and I need not go over the same ground again. I shall only mention that in the year under notice we completed our body of regulations under the Act by revising the Regulations for the Examinations of the Medical Faculty. The only points that require mention in these are (1) that the teaching of purely Scientific subjects required for the study of Medicine has been separated from professional instruction and excluded from the Medical College to which only candidates who have passed examinations in such subjects will be admitted in future; (2) there are to be three professional examinations in place of two; (3) the course of study in the Medical College has been shortened to four years from five; (4) a new degree, *viz*, Master of Surgery, has been instituted, which I hope will prove an attraction for students to take up the Medical line; (5) the necessity of candidates for the Degree of Bachelor of Medicine graduating first in Arts or Science has been dispensed with.

With regard to affiliation of Colleges there has been a second inspection on behalf of the University by the Members of the Committee constituted for that purpose and in accordance with their recommendations the affiliation of certain Colleges in a few additional subjects has been sanctioned by the Syndicate. As required by the Universities Act our rules for affiliation prescribe a high standard of efficiency for Colleges in regard to buildings, boarding accommodation, College staff and educational equipments. I should be sorry if these rules pressed hard on indigenous educational efforts which we should do our best to encourage. But some of the requirements insisted on are indispensable in the interests of good education. I am disposed to place a very high value on boarding accommodation. Indian opinion in some quarters is inclined to prefer home living to residence in a boarding house. Even if this view is well founded it is obvious that the bulk of College students cannot live at home. Undoubtedly, therefore, these ought to live among their fellows amid good and sanitary surroundings and under proper supervision. Every effort should, therefore, be made for providing suitable boarding-houses for Colleges, and I hope also for schools of the higher grade. I am glad to find that College authorities generally are alive to this want, and earnest efforts are being made to supply it. If there is failure it is mainly due to lack of funds.

The Oriental side of the University is one of its specialities, and great exertions are naturally made for keeping it up in proper condition. It is, however, not very popular, and though it takes up a large portion of the income of the University the results up to the present have not been commensurate with the expenditure.

A Committee has lately been constituted to consider the question whether a reorganization of the Oriental Department is necessary and to suggest proposals for the same if it is. At the same time the financial affairs of the University, which are not in a satisfactory state, are also being overhauled, and I hope that ere long, we shall have valuable advice in these matters. It may be possible, if there has been any over-elaboration in any branch of the Oriental Department, to reduce it within proper bounds and to make changes in the system of examinations by which different examinations in allied subjects may to a certain extent be combined or made to supplement one another so that they may be fewer in number and held more economically. If this can be done corresponding changes may be made in the system of instruction by which some unnecessary expenditure may be saved. I hope for substantial good to the finances of the University as well as to the Oriental College from the labours of these gentlemen.

My reference to the Oriental College leads me to speak naturally of the Law College, which is the other institution maintained by the University. I am grieved to say that the affairs of this College are in an unsatisfactory condition. It has no building in which to hold its lectures and no boarding-house for its students. Within the last few years the place of lectures has shifted from the Government College to a hired building condemned as unsuitable by the College Inspection Committee, and from that house to the side rooms of the University Hall and thence to the Forman Christian College, where its work is carried on after the work of that College is over. This is contrary to the scheme of studies, as the Law College is intended for post-graduate and full time work. A boarding-house has lately been opened in a hired building, and the University has undergone some expenditure in fitting it up for students, but the accommodation is insufficient and it is at best a make-shift. In fact, but that the institution is our own which we are bound to keep up, and is the only one for the teaching of Law in the Province, we should be compelled to close it according to our own rules for affiliated Colleges. But that can never be, for the study of Law is indispensable in a Government by Law like the British, and I have every reason to hope that better times are in prospect for the College. Application has been made to the Local Government for the necessary funds to build the College and boarding-house, and I hope that by the kind liberality of its head, who is our head also, we shall soon be in a more satisfactory condition. Can I not reasonably ask for help in this connection from the Members of the Bar who have in the past received in the College the education which has enabled some of them to attain to opulence and most of them to a competence by the practice of their profession? They have up to the present done nothing for their *Alma mater* the claims of which on their good-will are undeniable. I appeal to the members of the legal profession to take up the cause of the Law College and to contribute substantially to this fund. If the Graduates, Licentiates and Certificate holders come forward with liberal help for the College, our claims on Government for a contribution would be materially strengthened. Let me hope that my words have not fallen on deaf ears and that my appeal has not been made in vain.

The death roll of our Fellows last year, I am happy to say, is not long. We have, however, lost a most valuable Fellow in the Nawab of Bahawalpur, whose untimely death in the prime of youth is much to be be deplored. He was educated in the Lahore Chiefs College and passed the Matriculation Examination of this University, but the necessity of taking up the duties of his high position prevented

his pursuing his studies for higher examinations. In Khan Bahadur Raja Jehandad Khan, C.I.E. we have lost an Honorary Fellow who rendered excellent service to the British Government and who took part in deliberations of the governing bodies of the University in the earlier stages of its history.

The foregoing review of the operations of the University during the year under notice shows, I think that on the whole the Universiy has fully kept up to its old standard and has made fair progress. It only remains for me to make a few closing remarks suitable for the occasion to the students of the University.

As this is an educational gathering, and I am speaking in connection with education, I may be permitted to refer to a work honoured among educationists of ancient times, the study of which was regarded by them as giving a finishing touch to the training of those whose course of instruction was nearly complete.

I refer to the *Hitopadesha*, a work of world-wide renown which has been translated in most languages of the West and the value of which was appreciated by such famous sovereigns as Naushirwan the Just and the Abbasidæ Caliphhs of Bagdad. I select one of its openig passages which, to my mind, contains a precept of pre-eminent merit as the main text of my address to-day. It is as follows :—

and may be freely translated thus :—

The wise man should act in the pursuit of learning and wealth as if he was not subject to decay and death while he should practise religion as if death had already caught hold of him by the hair.

I cannot recall to mind any passage in which so much instruction has been so well and yet so tersely put as in this couplet. It takes at one sweep the whole duty of man and expresses in a few words and a few vivid and lifelike touches a rule of conduct for the entire span of human life from the days of studenthood to the time of death. Take the last line of the couplet for instance. Moralists inculcate the practice of virtue by enlarging on the instability of life and impressing on you that you have to die and then to reap the fruit of your actions. But what a world of verbiage is saved by this line. It puts before you the simple picture of death as actually standing before you and as having seized you by the hair. Death is going that very instant to take you to your reckoning. Are you ready to render your account at once as you should ever be ? A man who has this ideal before himself and who strives to act up to it can never fail in his duty to humanity and to God.

The same remark is true of the advice given to the worker in the world and the seeker after knowledge You must put out of sight the limitations of your powers and the uncertainty of life and work with a whole heart in the prusuit of wealth and learning. Not that the limitations do not exist, but if you allow them to constantly weigh on your mind you distract your attention and become disheartened in your task. Your entire attention must be constantly and steadily directed to these objects and you must not allow yourself to lose sight of them. Opportunities are constantly occurring, and if you are vigilant in taking note and diligent in making proper use of them, you may generally attain success. It is the half-hearted prusuit of your objects and your habit of listless inattention that is mainly responsible for your failure in life, whether as a student or as a worker in the world.

It need hardly be pointed out that all the doctrines inculcated in the maxim quoted are in perfect harmony with each other if the different objects are carefully kept in view.

The grand truth taught in this couplet is that in the search after knowledge, in the pursuit of wealth, and in the practice of religion a man must always be in right earnest and act with absolute singleness of purpose. When this cardinal truth is lost sight of, success is hardly possible, whereas if it is steadily kept in view, the chances of failure are few.

Confining myself to the subject of acquisition of knowledge, I would impress upon you Graduates, Under-Graduates and Students of the University, the supreme excellence of the maxim I have just quoted and ask you always to follow it. It is not my purpose to discuss all your duties as students. I must content myself with touching on only a few of the most important principles that ought to regulate your conduct, and I address myself to your moral rather than to your intellectual nature.

It has been impressed on you times without number that you should not regard your education as complete when you have taken your degree or finished your College career. In fact, your real education is then only beginning, and if the Graduates act up to the promises they have given in this Hall to-day in the presence of the Chancellor and the Convocation, it will continue all through life. You have gathered only a few scraps of information, collected some shells on the shores of the ocean of knowledge, to use the Newtonian figure. Perhaps you have not quite reached the shores, but merely obtained a distant glimpse of that ocean and hardly realized how vast, boundless and fathomless it is. The great advantage of your College career is not so much the amount of information you acquire as the mental training you receive to fit you for the acquisition and assimilation of further knowledge when you go forth into the world. The mental discipline you undergo, the methods of study and work to which you get habituated in College under the guidance of your professors (and here the College student scores a distinct advantage over the private) are of far greater value as a preparation for the work of life, whatever be the path you choose for yourself than more success in passing examinations.

To enable you to act up to the ideal I have placed before you while you are at College two things are most essential, (1) that when you are studying a book you should give your close, earnest and undivided attention to it and (2) that you should study steadily and continuously throughout your College life.

The psychological effect of mental application to a subject is in direct ratio to the intensity of that application. Not only will an attentive man see many things in the object of attention which an inattentive one will miss, but things actually perceived which will be fixed more fully on the memory of the former and recalled more vividly by him, will be forgotten or imperfectly remembered by the latter. On the other hand the fewer the objects are to which attention is directed the greater is the chance of accurate cognition and mental assimilation.

All true attention is engrossed by its proper object and practically oblivious of other concomitants. There can be no proficiency without the habit of earnest attention, and those who have attained eminence in any branch of Art or Science will be found to be equally distinguished by the cultivation and possession of that habit. The extraordinary skill of savage races in tracking

is due to their attentive observation of all they perceive. The triumphs of Sherlock Holmes in the detection of crime are the result of his careful survey of all the surroundings. The better to illustrate my remarks let me here give you the substance of a story from the *Mahabharata*. The princes of the house of Kuru were being instructed in Archery by a famous teacher of the art. After he had taught them for some time he instituted a tournament to test their proficiency. He told them that he would place a bird of clay in a tree and require them to shoot at its head. Having put it in position he asked each of his pupils to state what he saw while looking for his aim. They all described the tree, its branches and leaves and other things that were on the line of vision near the target. But when the hero of the epic was put the question his answer was that he saw only the head of the bird. Questioned further he repeated he saw nothing else, not even his preceptor who was standing by. Needless to say that in the Archery contest he easily came off first and became his master's favourite pupil, and this episode foreshadowed the extraordinary excellence in the art to which he attained under the master's teaching and which he used with such fatal effect in the great war described in the epic. Even so should your attention be directed to its proper object with all intenseness refusing to be diverted to others. When you study a great author with intense application, not only will his thoughts get indelibly impressed on your mind, but new ideas strike you from the context and new beauties uphold themselves to your delighted gaze. The same application enables the man of Science in the course of his experiments to get clues which lead him to new discoveries from incidents which are hardly noticed by the listless mind.

But closeness of application is not the only requisite for proper study. For the proper assimilation of knowledge it is essential that your attention should be fixed on its object for a certain length of time to allow of its image being imprinted on your mind. You can grasp only a limited number of facts within a given time. If you force yourself to grasp more the result is futile or at least imperfect assimilation. "Some books," says Bacon, "are to be tasted, others to be swallowed, and some few to be chewed and digested." This is advice for the reader of books generally. For you students of Colleges it is necessary to chew and digest the books recommended for your perusal. But mastication and digestion requires time, and this is the truth inculcated by the great essayist. If you do not allow yourself sufficient time to study the books of your course, you must swallow their contents as you swallow food when you eat in haste. But a meal hastily gulped down does not nourish the body and may be rejected by the stomach. So also as regards food for the mind. If you cram it with book lore by hard study, within a short time it may be possible to reproduce some of it if you are examined at once, but it will be in a crude and undigested form. But you want to assimilate knowledge so that it may be a permanent gain, that it may enlarge and improve your mind and that you may be able to use it for the acquisition of other knowledge. Cram learning, however, does not possess this character. It is not fully at your command, and you are at best able to reproduce it in the form you have swallowed it. You are bound to fail when a searching question is put which requires your applying it to facts other than those you have got by heart. Another defect of cram knowledge is that it is soon lost, that is, it goes out of the mind in a short time after the occasion for which it has been acquired has passed away.

Indian Universities are charged by critics with encouraging cram and insufficiently providing for the real improvement of the minds of students. The charge is probably true to a certain extent and a greater advance in the direction of specialization will perhaps be beneficial, and I should feel most happy if the eminent educationists who are in charge of the affairs of the University will devote their attention to this question. But the fault of cramming is due for the most part to the conduct of the students themselves and possibly to some extent to insufficient supervision on the part of their instructors. Frittering away the greater part of the time fixed for reading up for an examination in nominally going through the course without close and earnest attention throughout, and studying hard just before the examination must needs lead to cram. Such conduct is inconsistent with that singleness of aim and that steadiness of purpose which ought to be the active guiding principle of every seeker after knowledge. By acting thus one violates the grand truth embodied in the maxim I have put before you. To follow the advice of the *Hitopadesha* it is necessary not only that you should closely attend at the time to what you study, but also that you should give that close attention to your studies steadily and continuously throughout your College career.

In short, the maxim I have quoted requires that while you are at College you should regard the acquisition of knowledge as your paramount duty and shape your whole conduct accordingly. Not only is this dictated by every consideration of prudence as I have shown, but also supported by other reasons of even greater force. Collegiate education in these days is expensive, particularly for those who live away from home. Judging from the slender means, as a rule possessed by Indians of the middle classes to which the bulk of you belong, I have little doubt that in many instances, your University education spells discomfort, if not privation, for your parents or guardians. Knowing what hardships they have to endure, what difficulties they have to undergo to provide the cost of your education, are you not bound in honour to exert your utmost to carry out the purpose for which all this is borne by those near and dear to you? To forget this is rank ingratitude and a most evil return for affectionate sacrifices undergone for your sake and for all the confidence reposed in you.

It follows that in your College life you are bound to abstain from all matters that distract your attention from your studies and to treat the acquisition of knowledge as your sole concern. These distractions are numerous and I have no time to refer to all of them. But it is my duty to mention one which at the present moment is engaging much public attention and which seriously threatens to retard the cause of good education. It is an evil which no one having the best interests of students at heart can afford to ignore and which I must ask your good sense to combat to the best of your power. I allude to the practice of students actively participating in the political questions of the day.

Far be it from me to say that you should not take an intelligent interest in the political affairs of your country. The Circular recently issued by the Government of India concedes this, and in his Convocation speech last year His Honour our late Chancellor declared his sympathy for the aspirations of educated Indians. Nor shall I say a word in disparagement of the sense of nationality growing up in your minds, but let me observe in passing that you should not forget that it is a product of British culture and one of the many inestimable benefits conferred by British rule. A great, strong, central authority has secured peace and safety of person and property throughout this vast country and has given you facilities for intercommunication on the most improved methods. Community of traditions and interests and progress of Western ideas have as a result called forth this sentiment which is gaining strength despite many adverse circumstances such as long distances and diversity of religion, race and language. The desire to take part in political life is a natural concomitant.

I shall address you here simply from an academic point of view, and if I happen to touch on any other aspect of the question it will be purely incidental and by way of illustration.

The active pursuit of politics in a rational and effective manner requires a considerable knowledge of History and Economics and a study of the administrative problems of the country besides some literary culture. It also requires industry in ascertaining the needs of one's fellow-men, a capacity for a careful balancing of conflicting arguments and for co-ordination of means to ends in devising measures for relieving those needs and some skill in putting one's views before the public and the authorities. These are the minimum intellectual equipments of a true politician and must be combined with maturity of judgment and steadiness of principles.

The mere possession of the gift of eloquence is not enough, though facility of expression and power of persuasion are most valuable qualities in a politician. Further, criticism of public measures must not be purely destructive. Where an adminstrative need has arisen it must be supplied and it is useless simply to find fault with the measure proposed; an alternative measure capable of serving the same purpose but not open to the same objections ought to be put forward. Invective cannot supply the place of argument, nor is success possible without strong reasons on your side.

Now it is difficult for a student at College to possess all these qualfications. He has yet to acquire knowledge, and, as he is young, his judgment must be immature. He cannot enter into the examination of the complex problems which the politician must master without serious detriment to his studies and without violating his primary duty. If, therefore, he actively meddles in politics he must needs swell the ranks of those politicians whose principal qualification is a power of declamation.

The proper persons to take up political questions are men of finished education and formed minds who have devoted time to the study of them. If men of this stamp do not come forward in sufficient numbers to take up a political movement on proper lines it cannot be reasonably expected to succeed on the mere support of College students and School boys. If they do come forward is not the intervention of students superfluous and is it not likely to embarrass rather than help them?

Students of the University, there is yet a greater evil springing from your taking an active part in political movements. Not only do you thereby impair your chances of the acquisition of knowledge which is your sole aim in entering College and for which your guardians have sent you there, but probably also do serious injury to your moral nature which is still more disastrous. You are unable for the most part owing to inexperience to see both sides of things and weigh the reasons for and against a particular measure. You are likely to be swayed by your impulses which are doubtless generous but not yet under proper control. You are thus liable to be easily carried away by the eloquence of the speaker who addresses you and betrayed into extravagances of conduct which are regretted by all true well-wishers of the country and which must injure instead of advancing the cause you support. Thus you learn to break loose from restraint and in consequence impair those habits of discipline which are the most valuable part of your Collegiate education. Those who enlist School boys and College students to support their political views incur a most serious responsibility. To gain the doubtful advantage of such support they withdraw young and untrained minds from their proper and legitimate work and put back the progress of education for years and thus inflict incalculable injury to the true interests of the country. This has actually happend in Russia where the Schools and Colleges are practically at a standstill according to reliable accounts.

I am not asking you to renounce your patriotism or to abandon your love for your country and people. On the contrary I adjure you to cherish those noble sentiments. But I ask you to adopt the right method of doing the service you wish to render your motherland, a desire worthy of all praise. Resolve to devote your best intellectual gifts and the fruits of your education to the welfare of your fellow-men by all means, but in order to be able to do such service you must acquire knowledge and perfect your mental equipment. You should pursue your studies without distraction and complete your education. When you have done that and left College you may then devote yourself to the study of political problems, carefully consider the adaptation of means to ends and submit your view to the authorities in a proper, sober and manly way. Invective and abuse are unworthy of cultured men and incompatible with true manliness and if you allow your mind to be properly disciplined you will never stoop to them. Well-reasoned representation supported by facts and couched in respectful and temperate language must and will ultimately command a hearing.

Occasional academic discussions of abstract political topics by advanced students in their debating societies under the supervision of their professors do not appear to be open to the objections stated and my remarks are not meant to cover them.

Students and Graduates of the University, I appeal to you therefore not to waste your opportunities but to pursue your studies with unremitting zeal, following the advice of the *Hitopadesha* and to leave politics for the present to your elders. You are the rising hope of India, the reserve force on whose exertions the future well-being of the country depends. Will you fritter away your gifts and neglect your studies by pursuits for which you are not yet fitted but for which you may, by diligent study now, fit yourselves hereafter and thus throw away the substance for the shadow. In the name of true love of country, I adjure you not to do so.

Another thing I ask you to cultivate, if you are trying to act up to the maxim I have put before you, is the habit of reverence; reverence for all that is good and great, reverence for the past and for your elders and superiors. For the proper training of your mind this is an essential condition. You must always be actuated by the spirit of obedience. For obedience is the foundation of civil society and of the State There can be no discipline unless there is obedience, no progress in education unless the pupil follows the direction of his master, no success in any undertaking for which an organized effort is required. There is nothing derogatory in obedience, as there is none in service; service to your country, to your king to your parents or to humanity. He who cannot obey shall never command, never rise to a position to command. You cannot read the masterpieces of literature with pleasure or profit unless you approach them in a spirit of humility. If you come to School or College with an unruly spirit and keep up that spirit you will leave it just as you came, for the mind that is not humble cannot learn. It is not necessary that I should say much on this subject to an assembly of Indian students, for obedience to parents and guardians, to teachers and to the king, is ingrained in them, whether they are Hindus or Muhamadans, by religion and ancient tradition.

Another most desirable thing for you to cultivate in your student life is the spirit of patience and temperance. If temperance in bodily habits is essential to progress, temperance in thought is still more beneficial for the work of life Always strive to see both sides of a question and do not hastily generalize and rush to conclusions. Your impulses are generous, but they must always be kept under the control of your judgment or they will be a constant source of trouble and drive you to untenable and undesirable positions. A well-regulated mind is a prime necessity for a true seeker after knowledge. As far as possible avoid thinking and speaking in superlatives; inquire with patience and judge with sobriety.

Students of the University, I have addressed myself more to your moral than to your intellectual nature because the former is of far greater importance. Those of you who have obtained degrees will presently go forth into the world to begin the battle of life. The success that is likely to crown your efforts will more largely depend upon the earnestness and singleness of purpose with which you will devote yourselves to the line of work you choose, that is act upon the advice given in the *Hitopadesha*, and on your mental discipline, than the amount of book knowledge which you have stored in your minds. It is possible that in the great arena of the world some will fail to earn the prizes in spite of their best efforts, for success is not always to the most deserving nor victory to the most strong, but if they act up to this ideal they will have deserved success which is always a greater honour than the mere winning of it.

But this earnestness and this discipline should not be one-sided. In other words you should follow the whole maxim and not merely the portion relating to the pursuit of learning and wealth. The great object of education and University training is to turn out not merely good scholars and workers but also good men. You graduates have just heard what standard of conduct is expected and required of you and have given the undertaking to act up to it through life. Do not regard this as an empty form but treat it as a solemn promise which you are bound in honour to fulfil through all the vicissitudes of life. Never forget but always strive to act up to it. Never forget to what an honourable body you belong and in your conduct and your actions be it always your endeavour to shed credit on your University. Treat your gifts as given to you not solely for your personal advancement but for the benefit of humanity as well, as a sacred trust to be devoted to the service of your fellowmen. You should be philanthropic as well as patriotic, ever ready to do what you can to advance their true interests, bearing in mind the words of the Prince of poets—

Thyself and thy belongings
Are not thine own so proper as to waste
Thyself upon thy virtues, they on thee.
Heaven doth with us as we with torches do,
Not light them for themselves ; for if our virtues
Did not go forth of us, 'twere all alike
As if we had them not.

In short, have your eye fixed on the last words of the maxim and realize that this is but a transient world and that you are liable at any moment to be called to your account, and you can never behave unworthily or bring shame on your *Alma mater*.

Students will be present also at lessons given by the teachers of the Central Model School. On such occasions it will be their duty simply to observe what is going on before them, and to take notes of the teacher's manner and method of teaching.

Drawing is a compulsory subject of study in each class, and students are trained for Drawing Masters' Certificates.

Every student is expected to go through one or other of the courses of Physical Training laid down for the Senior or Junior Gymnastic Teachers' Certificate Examinations. Athletic Sports and Games are compulsory. A College Tournament for Athletic Sports and Gymnastics is held early in December each year. The College also sends representative teams to compete in the University Tournament.

ADMISSION TO THE COLLEGE.

Candidates are not admitted below the age of 17. Candidates desiring to join the College should apply to the Principal not later than the 3rd May on forms which can be obtained at the College, and *should be present on the 4th May, when the selection of stipendiaries is made.*

Candidates for admission will be required to produce two certificates,—one of *good character*, signed by the Head Master or the Principal of the institution in which they last studied, and the other of *health*, signed by a Civil Surgeon, or an Assistant Surgeon. Copies of all the University and character certificates must be sent with the application. The original certificates should be submitted at the time of selection.

Forms of the Medical Certificate can be obtained from the Principal.

No one who has formerly attended the College and failed in the examination for a Teacher's Certificate can be admitted during a second session, unless the Principal considers him likely to profit by a further course of training.

Candidates selected for admission will be required to sign an agreement to remain at the College for the full course of training, failing which they must refund the amount of money received by them as stipends. On such occasions it will be their duty simply to observe what is going on before them, and to take notes of the teacher's manner and method of teaching.

Drawing is a compulsory subject of study in each class, and students are trained for Drawing Masters' Certificates.

Every student is expected to go through one or other of the courses of Physical Training laid down for the Senior or Junior Gymnastic Teachers' Certificate Examinations. Athletic Sports and Games are compulsory. A College Tournament for Athletic Sports and Gymnastics is held early in December each year. The College also sends representative teams to compete in the University Tournament.

Forms of the Medical Certificate can be obtained from the Principal.

No one who has formerly attended the College and failed in the examination for a Teacher's Certificate can be admitted during a second session, unless the Principal considers him likely to profit by a further course of training.

Besides the above, during the course of the Session, every student of the Training College will devote a certain definite time, to be fixed by the Principal, to actual teaching in the Central Model School. Students will be present also at lessons given by the teachers of the Central Model School. On such occasions it will be their duty simply to observe what is going on before them, and to take notes of the teacher's manner and method of teaching.

Drawing is a compulsory subject of study in each class, and students are trained for Drawing Masters' Certificates.

Every student is expected to go through one or other of the courses of Physical Training laid down for the Senior or Junior Gymnastic Teachers' Certificate Examinations. Athletic Sports and Games are compulsory. A College Tournament for Athletic Sports and Gymnastics is held early in December each year. The College also sends representative teams to compete in the University Tournament.

ADMISSION TO THE COLLEGE.

Candidates are not admitted below the age of 17. Candidates desiring to join the College should apply to the Principal not later than the 13th May on forms which can be obtained at the College, and *should be present on the 14th May, when the selection of stipendiaries is made.*

Candidates for admission will be required to produce two certificates,—one of *good character*, signed by the Head Master or the Principal of the institution in which they last studied, and the other of *health*, signed by a Civil Surgeon, or an Assistant Surgeon. Copies of all the University and character certificates must be sent with the application. The original certificates should be submitted at the time of selection.

Forms of the Medical Certificate can be obtained from the Principal.

No one who has formerly attended the College and failed in the examination for a Teacher's Certificate can be admitted during a second session, unless the Principal considers him likely to profit by a further course of training.

Candidates selected for admission will be required to sign an agreement to remain at the College for the full course of training, failing which they must refund the amount of money received by them as stipends. The agreement should be duly attested by the Civil authorities before admission to the College.

Besides the above, during the course of the Session, every student of the Training College will devote a certain definite time, to be fixed by the Principal, to actual teaching in the Central Model School. Students will be present also at lessons given by the teachers of the Central Model School. On such occasions it will be their duty simply to observe what is going on before them, and to take notes of the teacher's manner and method of teaching.

Drawing is a compulsory subject of study in each class, and students are trained for Drawing Masters' Certificates.

Every student is expected to go through one or other of the courses of Physical Training laid down for the Senior or Junior Gymnastic Teachers' Certificate Examinations. Athletic Sports and Games are compulsory. A College Tournament for Athletic Sports and Gymnastics is held early in December each year. The College also sends representative teams to compete in the University Tournament.

ADMISSION TO THE COLLEGE.

Candidates are not admitted below the age of 17. Candidates desiring to join the College should apply to the Principal not later than the 13th May on forms which can be obtained at the College, and *should be present on the 15th May, when the selection of stipendiaries is made.*

Candidates for admission will be required to produce two certificates,—one of *good character*, signed by the Head Master or the Principal of the institution in which they last studied, and the other of *health*, signed by a Civil Surgeon, or an Assistant Surgeon. Copies of all the University and character certificates must be sent with the application. The original certificates should be submitted at the time of selection.

Forms of the Medical Certificate can be obtained from the Principal.

No one who has formerly attended the College and failed in the examination for a Teacher's Certificate can be admitted during a second session, unless the Principal considers him likely to profit by a further course of training.

Candidates selected for admission will be required to sign an agreement to remain at the College for the full course of training, failing which they must refund the amount of money received by them as stipends. The agreement should be duly attested by the Civil authorities before admission to the College.

Dated Lahore, the 30th March 1908.

CHIEF COURT Correction Slip No. 167, dated 30th March 1908, authorizes the purchase by all Civil Courts, subject to budget provision, of the "Compendium of the Punjab Customary Law" by Mr. H. A. Rose, I.C.S. The price of the book is Rs. 3, and it can be obtained from the "Civil and Military Gazette' Press, Lahore.

2. The book is, in the opinion of the Hon'ble Judges, a suggestive one and likely to prove useful to Judicial Officers if used with discretion. At the same time it must be remembered that it is not an authoritative compilation, and the propositions it lays down cannot of course prevail against rulings by the Chief Court.

CIRCULAR LETTER No. 5.

FINANCIAL COMMISSIONER'S OFFICE:

Dated Lahore, 9th June 1908.

FROM

R. C. BOLSTER, ESQUIRE,

Junior Secretary to Financial Commissioner, Punjab,

TO

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

SIR,

Sub-head No. 201.
File No. 61.

WITH a view to obviating the delay in communicating Divisional *takavi* allotments which occurs under the present system of waiting for the formal sanction of the Government of India to the Provincial Advance and Loan Estimates, and in consequence of which *takavi* operations are almost suspended during the first two months of the financial year, the Local Government has agreed to make the Financial Commissioner a standing minimum allotment for loans under Acts XIX of 1883 and XII of 1884 of 8 *lakhs* per annum.

2. Commissioners may accordingly proceed on the assumption that the following minimum allotments will be made each year, *viz.*—

Delhi	...	...	... 2 lakhs.
Jullundur	...	...	... 1 lakh.
Lahore	...	...	... 1 lakh.
Ráwalpindi	...	...	... 1 lakh.
Multán	...	...	... 2 lakhs.

(one *lakh* being retained as the Financial Commissioner's reserve), and may distribute these sums in standing *minimum* allotments to Deputy Commissioners, who may at once on the commencement of each financial year begin the issue of *takavi* loans on the basis of these *minimum* allotments, without waiting for special sanction.

3. It must be understood that the arrangement above described is not intended to dispense with the submission to Government annually of the usual *takavi* budget estimates. These will be furnished as usual, their basis being the minimum allotments *plus* additional sums rendered necessary by agricultural conditions obtaining at the time and anticipated in the forthcoming year.

CIRCULAR LETTER No. 7.

FINANCIAL COMMISSIONER'S OFFICE:

Dated Lahore, 24th June 1908.

FROM

R. C. BOLSTER, ESQUIRE,

Junior Secretary to Financial Commissioner, Punjab,

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

SIR,

IT has been represented to the Financial Commissioner that lambardars are often exposed to inconvenience and risk owing to the delay that occurs under the practice prescribed in Revenue Circular 40, paragraphs 8 to 10, where the *sadr tahsil* is at a considerable distance from the treasury, in the supply to them, of *dakhilas* or receipts (prepared at the *tahsil*) for presentation at the treasury, on account of payment of Government dues; as unless they are able to present the *dakhilas* at the treasury before the close of the day upon which they obtain them, they are often compelled to keep large sums of money in their possession for a night.

2. The Financial Commissioner accordingly authorizes the adoption, at any *sadr tahsil* where the *tahsil* is at a distance from the treasury, and where the system is likely to prove useful, of the following rules, *viz.*—

(*i*) The *Wasil Baki Navis* shall attend at the *sadr* treasury from 9 A.M. to 2 P.M. on days to be specified by the Deputy Commissioner during the period for payment of instalments of Government dues.

(*ii*) The *Wasil Baki Navis* shall, on the days to be prescribed under rule (*i*) above, receive *at the treasury* the *arzirsals* (memoranda of payment) tendered to him by lambardars on account of any kind of Government demand payable by them, *e.g.*, land revenue, canal rates, cesses and mutation fees, and shall prepare the necessary *dakhilas* just as he does ordinarily at the *tahsil*; except that he will issue the *dakhilas* on his own signature instead of on that of the *Tahsildar*.

(*iii*) All further procedure shall be in accordance with existing rules, the *dakhilas* received in the Treasury Department being duly returned in a locked box to the *tahsil*, and the payments being entered up by the *Wasil Baki Navis* in his *khataunis* (village demand and collection statements) without delay.

3. The working of these rules, where adopted, should be noticed in the annual revenue report.

I have, &c.,

R. C. BOLSTER,

Junior Secretary to the Financial Commissioner, Punjab.

Report of a meeting of the History Board of Studies, held on Saturday, the 19th October 1907.

1. The syllabus in Geography had been referred back to the Board for further consideration. They asked the opinion of Mr. Tydeman, the Examiner, who recommended that I (*b*) should read as follows:—

> The continents, their natural regions and surface features, climate and rainfall, their influence on vegetation and on the distribution of mankind.
>
> The division of the continents into countries, the most important products natural and manufactured, people—distribution and occupations, commerce, means of communication, trade routes and chief towns.
>
> The British Empire, to be studied in somewhat fuller detail. Map drawing of the continents and of India with the chief features as above.

This recommendation the Board endorse.

2. The question of indicating what particular part of a text-book would best meet this syllabus was held to be the business of the Education Department and not of the University.

3. The following alterations are recommended for the Courses of 1910:—

Entrance.— Geography: the syllabus as above. History: As in 1909.

MATRICULATION.

Calendar, page 163—

Arithmetic.—After "extracting the cube root" *add* "but including the elements of decimal approximations"

INTERMEDIATE.

Calendar, page 178—

1. *Arithmetic.—Add* "contracted methods of multiplication and division, recurring decimals, decimal approximations, stocks."

2. *Algebra.—After* "Equations and Expressions" *add* "Linear Graphs."

3. *Geometry.*—For what is given under this heading on page 178, *substitute* the following :—

(*a*) *Plane Geometry of the straight line and circle.*

As for the Matriculation Examination, with the following additions :—

(In Schedule A)—

The construction of a circle about or in a given triangle.

The division of a given straight line in extreme and mean ratio.

The construction of a regular pentagon.

The construction on a given line of a figure similar to a given rectilinear figure.

To find a point in a given straight line, such that the sum of the distances of two given points from it is a minimum.

Two sides of a triangle being given, to construct the triangle such that its area is maximum.

(In Schedule B)—

If ABCD be four points taken in order on a straight line, $AB.CD + BC.AD + CA.BD = O$.

In any triangle, the perpendiculars at the middle points of the sides, the perpendiculars from the vertices on the opposite sides, the bisectors of the angles, and the medians, are severally concurrent.

The feet of the perpendiculars on the sides of a triangle from any point on the circumcircle are collinear.

The existence and simpler properties of the nine-points circle.

Pythagoras's Theorem, and Converse.

If ABC be a triangle, and AD a median

$AB^2 + AC^2 = 2BD^2 + 2AD^2$.

If ABC be a triangle, and AD the bisector of an angle.

$BA.AC = BD.DC + AD^2$.

If ABC be a triangle, and AD the perpendicular on the base from A, and AE the diameter of the circumcircle through A—

BA.AC=EA.AD.

If ABCD be a quadrilateral inscribed in a circle AC.BD=AB.CD+BC.AD.

The locus of a point, the ratio of whose distances from two given points is equal to a given ratio, is a circle.

If two rectilinear figures be similar, they can be placed, so that the lines joining their corresponding vertices are concurrent.

If two rectilinear figures be similar, their corresponding sides and diagonals are proportional.

If three concurrent straight lines be drawn from the angular points of a triangle to meet the opposite sides, the product of the three alternate segments taken in order is equal to the product of the other three segments (Ceva's Theorem), and conversely.

If a transversal cut the three sides of a triangle, the product of the three alternate segments taken in order is equal to the product of the other three segments (Menelaus' Theorem), and conversely.

If two triangles are such that the lines joining corresponding vertices are concurrent, the intersections of corresponding sides will be collinear, and conversely.

(*b*) *Geometry of the Parabola and Ellipse.*

(1) Parabola—

Tracing the curve from the definition—

Latus rectum is four times the focal distance of the vertex.

$PN^2=4.AS.AN$.

The locus of middle points of parallel chords is a straight line parallel to the axis, passing through the point of contact of the tangent parallel to the chords.

The focal chord which is bisected by any diameter is equal to four times the line joining the focus to the vertex of the diameter.

If QV is an ordinate to the diameter PV, then $QV^2=4\ SP.PV$.

If any chord QQ′ intersects the directrix in D, SD bisects the exterior angle between SQ and SQ′.

The portion of the tangent at any point intercepted between that point and the directrix subtends a right-angle at the focus.

The tangent bisects the angle between the focal distance and the perpendicular on the directrix.

The tangents at the extremities of a focal chord intersect on the directrix at right angles.

The sub-tangent is bisected at the vertex.

The normal at any point makes equal angles with t..e focal distance and the axis.

The sub-normal is equal to half the latus rectum.

The locus of the foot of the perpendicular from the focus on tangents is the tangent at the vertex.

(2) Ellipse—

Tracing the curve from the definition—

The curve is symmetrical with regard to the minor axis and has a second focus and directrix

$CS.CX=CA^2$, $SP+S'P=AA'$; $CB^2=SA.SA'$.

If any chord QQ′ of an ellipse intersect the directrix in D, SD bisects the exterior angle between SQ and SQ′, $PN^2 : A'N.\ AN=CB^2 : CA^2$.

The locus of middle points of parallel chords is a straight line passing through the centre and the points of contact of tangents parallel to those chords.

The portion of the tangent at any point intercepted between that point and the directrix subtends a right-angle at the focus.

The tangents at the extremities of a focal chord intersect on the directrix.

The tangent at any point makes equal angles with the focal distances of the point.

The locus of the feet of the perpendiculars from the foci upon tangents is the auxiliary circle.

(*c*) *Solid Geometry.*

One and only one plane may be made to pass through any two intersecting straight lines.

Two intersecting planes cut each other in a straight line.

If a straight line be perpendicular to each of two intersecting straight lines at their point of intersection, it is also perpendicular to the plane in which they lie.

All straight lines drawn perpendicular to a given straight line at a given point are co-planer.

If one of two parallel straight lines be normal to a plane, the other will be so also.

Of all straight lines drawn from an external point to a plane, the perpendicular is the shortest: of obliques drawn from the given point, those which cut the plane at equal distances from the foot of the perpendicular are equal.

Straight lines parallel to a given straight line are parallel to one another.

The projection of a straight line on a plane is itself a straight line.

If a straight line outside a given plane be parallel to any straight line in that plane, it is also parallel to the plane itself.

If a straight line be perpendicular to a plane, any plane through it is also perpendicular to the given plane.

If two intersecting planes be each perpendicular to a third plane, their line of section is also perpendicular to that plane.

In a trihedral angle, the sum of any two of the face angles is greater than the third.

In a convex solid angle, the sum of the face angles is less than four right-angles.

4. *Trigonometry.—Add* "Graphs of Simple Trigonometrical Functions."

5. *Logarithms.*—For what is given on page 175, ***substitute*** the following :—

Expansion of log $(1+x)$; use of logarithms.

N. B.—Questions may be put which require the use of logarithmic tables.

B. A.

Calendar, page 202—

The syllabus for the Intermediate Examination as for 1909.

The syllabus for the Matriculation Examination is still under consideration.

Proceedings of the Board of Studies in Physics and Chemistry, held in the Senate Hall, Lahore, on Tuesday, the 14th January 1908.

In accordance with the decision of the Senate, dated the 9th March, 1907, student desirous of joining the Medical College in 1908 will be allowed to do so on passing the Intermediate Science Faculty Examination, together with an Additional Test in Chemistry. According to this arrangement, no knowledge of the "Metals" is necessary, an obviously anomalous state of affairs. The Board of Studies in Physics and Chemistry suggest that the last paragraph of the syllabus for Chemistry Theory, 1909, (page 183, lines 5 to 12), be added to the additional test in Chemistry for this year, 1908.

In order that no undue pressure be put on students, it is further suggested that the additional test in Chemistry take place at the same time as the Preliminary Scientific Examinations, and not with the F. Sc. Examinations.

In accordance with the resolution of the Science Faculty at a meeting of December 19th, 1907, it was decided to suggest—

That in the Intermediate Science and Arts Faculties (Calendar, page 189, line 1) instead of "General characters—minerals," write "General characters—composition, and description of the common rock-forming minerals and ores.

"In the oral and practical Examination each candidate will be required to recognize characteristic fossils and describe and identify from hand specimens common rocks and minerals, to distinguish between the various classes of rocks, and to recognize the commonest rock-forming minerals by means of the petrological microscope."

Proceedings of the Meeting of the Board of Studies in Panjabi, held in the Senate Hall, Lahore, on Saturday, the 2nd November 1907, at 4-15 p. m., and again at the House of S. Gurcharn Singh, on Friday, the 22nd November, 1907.

APPENDIX IX.

Proceedings of the Sub-Committee appointed by the Vice Chancellor, in accordance with a Resolution of the Senate, to examine the financial condition of the University with special reference to the recurring deficit and to make proposals for equalising the receipt and expenditure.

A preliminary meeting was held on Saturday, the 6th July, 1907, at 5-30 P.M.

PRESENT.

W. Bell, Esquire, M.A., C.I.E. (*in the Chair.*)
S. Robson, Esquire, M.A.
Rev. H. D. Griswold M.A., Ph.D.
Lala Hans Raj, B.A
Lala Sundar Das Suri, M. A.
Shadi Lal Esquire, M.A. B.C.L., Bar.-at Law.
A. C. Woolner, Esquire, M.A., *Registrar.*

1. The Registrar explained that the object of this meeting was to decide what statements should be prepared for the information of the Committee. These statements ould be printed and circulated during the vacation; the Committee would be then in a better position to frame proposals in the autumn term.

The Registrar then made a general statement as to the position of the University finances during the last six years, showing how an annual surplus of about Rs. 10,000 had dwindled until there was an actual deficit, and that this deficit was likely to be greater in the future. It was true that in the financial year 1906-07 there had been a surplus of about Rs. 20,000 (excluding extraordinary items on both sides), but that was due to exceptional circumstances connected with a period of transition from the old to the new regulations.

2. The Registrar then dealt generally with the cost of the Oriental College. In order to estimate the extent to which the Oriental College was a burden on the University finances, it would be necessary to enquire into the sources of the income spent on this College. The total cost was about Rs. 30,000 per annum.

Of this about Rs. 5,000 could be accounted for by Special Endowments, which were not available for the general purposes of the University, and Rs. 5,800 was received from Government for the tuition of Government College classes in Oriental languages.

This left about Rs. 19,200 to be accounted for. About Rs. 6,000 could be said to come from the general Endowment Fund. It had been held that the interest from this Fund was available for the general purposes of the University, but in view of the history of the Fund it could reasonably be held that the Oriental College represented that side of the work of the University which these endowments were specially intended to promote.

This left about Rs. 13,200. The question as to what source of income this could be credited depended on the purpose of the general Government grant of Rs. 21,500 per annum. If it was the case that this grant had been given by Government mainly to support the Oriental side of the University, and would not have been given if there had been no Oriental College, then it was clear that the College was not really a burden on the finances of the University, but rather the reverse.

3. Turning then to the Law College, the Registrar suggested that it would be useful to enquire where the money spent on this institution came from.

Its income was generally considered to consist of tuition fees and any profit made on the Law examinations.

This income had been at one time more than sufficient to pay for the College. Then expenditure was increased, and the numbers in the classes dropped. This income then became insufficient, and an application was made to Government for aid. A special grant was given for two years and then withdrawn.

During the last financial year the College had paid its way ; this however was partly due to the state of transition to new regulations, and partly due to there being no permanent Principal. It was now intended to increase the expenditure, and the income was bound to fall.

It would then be a question as to what source of income was available to make up the deficit.

4. The Committee then resolved that the following statements be printed and circulated :—

(i) Actual income and expenditure for the last 6 years excluding special items on both sides, these items to be noted separately so that the sum of the two totals on either side should correspond with the totals of the current account.

(ii) Statement of the sources of income for the last 6 years.

(iii) Statement of the expenditure on office establishment and management, with a comparison with the expenditure of other Indian Universities.

(iv) Statement showing the increase of expenditure involved in the increased remuneration of Examiner, and the probable increase of income that would be effected by the recent raising of certain examination fees.

(v) A statement of the amount spent during the last year on examination furniture and of the amount to be spent during the present year recurring expenditure on repairs to be excluded.

5. Mr. Bell expressed his opinion that the amounts of the University should be audited by a business man who would give a statement as to the general financial position of the University regarded for this purpose as a business concern, and not confine himself to examining vouchers and records of sanction for various items of expenditure.

The Committee agreed with the Director's opinion, and in the meantime it was resolved to ask the Vice-Chancellor to sanction the appointment of a chartered Accountant to advise the Committee, suitable remuneration being given. On receiving the Vice-Chancellor's sanction, the Registrar was to arrange accordingly.

CONFIRMED.

W. BELL,
Chairman.

A. C. WOOLNER,
Registrar.

Proceedings of the Sub-Committee appointed by the Vice-Chancellor, in accordance with a Resolution of the Senate, to examine the financial condition of the University, with special reference to the recurring deficit, and to make proposals for equalising the receipt and expenditure. A meeting was held on Monday, the 13th January, 1908, at 5 p.m.

PRESENT:

S. Robson, Esq., M. A. (*in the Chair*).

Rev. H. D. Giriswold, M.A., PH.D.

Lala Sundar Das Suri, M. A.

Shadi Lal, Esquire., M.A., B.C.L., *Bar.-at-Law.*

A. C. Woolner, Esq., M. A., *Registrar.*—

1. The statements asked for by the Committee at its preliminary meeting in July had been prepared during the summer vacation, and had been printed and circulated shortly afterwards.

(*Vide* appendices attached to these proceedings.)

The Registrar informed the Committee that he had endeavoured to ascertain the conditions, if any, that attached to the Annual Government grant of Rs. 21,500, but had not been able to obtain copies of the correspondence connected with the institution of the grant.

In the Calendar of the University College of 1878 there was printed a copy of the Resolution of the Government of India, No. 472, dated 8th December, 1869, which constituted the University College, and which concluded with the following words: "and has further consented to contribute from the Imperial Revenues, towards the expenses of the Institution, an amount equivalent to the annual income raised from private sources, including subscriptions and interest on invested capital, up to the sum of Rs. 21,000 per annum."

The Registrar was inclined to conclude that the present grant of Rs. 21,500 was in some way a continuation of, or a substitute for, the aid therein promised. The main objects of the University College so to be aided were precisely those of the Oriental College

On the other hand the University was the direct descendant of the University College, and it could be argued that as the work of the University had expanded the Government grant was equally applicable to any part of that work.

The Committee considered that there was not sufficient evidence to settle the question, but that Government should be asked whether any conditions attached to all or part of the grant of Rs. 21,500 now paid.

2. The Committee then considered in detail the statements which had been circulated, especially statement No. 1, with a view to the possibility of increasing items of income and decreasing those of expenditure. It was noted in the first place that the sudden decline in the University finances had been due to the abolition of the Anglo-Vernacular Middle School Examination and loss on the Law College.

The sudden improvement in 1906-07 was due mainly to the transition period in the Law College, during which there were large numbers in both the old and the new classes.

In the current financial year the Registrar expected a deficit of something under Rs. 10,000. Next year the receipts from the Law College were bound to drop, whereas the expense was increasing. Moreover, the Syndicate proposed next year to put further restrictions on the admission of private candidates, which would also decrease the receipts.

3. As regards the first item of income, *viz.*, subscriptions, it was noted that this had fallen to Rs. 2,600, and in one year was as low as Rs. 2,300.

The Registrar explained that most of the Municipalities had withdrawn their subscriptions, and that only two of the Indian Chiefs were subscribers.

At one time the Municipalities contributed over Rs. 7,000, and the Lahore Municipality alone subscribed Rs. 1,500. The Committee decided to recommend that an appeal be issued to all the Ruling Chiefs and all the Municipalities in the territories of the University.

The Committee understood that the Syndicate proposed to appeal to the Ruling Chiefs for funds to promote Vernacular Literature, and a similar appeal had been recommended by another Committee for funds to send Indian students of Oriental Languages abroad for further training. The Committee wished to suggest therefore that in the appeal made to the Chiefs all these various objects should be stated and each subscriber given an opportunity of indicating for which of these objects his donation or subscription was intended.

4. As regards No. 3, Fees, the Committee anticipated a drop in the Law Fees, also in the fees of private candidates, but it was expected that the fees from College candidates and Matriculation candidates would gradually rise to a higher figure.

It was noted that the fees from Medical candidates amounted to about Rs. 4,505 less than the amount spent on the remuneration of Examiners and conduct of the Examination, without counting the work of the Registrar's Office.

The Committee considered that this difference should be equalised either by raising the fees or reducing the remuneration of the Examiners.

5. As regards No. 4 (*a*), Government grant of Rs. 21,500, the Committee decided to recommend that an appeal be made to Government to increase this grant to Rs. 30,000, and that this appeal should be made on the following grounds:—

(i) The Oriental College was practically a Training College for Teachers of Oriental Languages. For many years the great majority of teachers of Sanskrit, Arabic and Persian for the whole province had been drawn from this College.

(*Vide* Dr. Stratton's evidence before the Universities Commission.)

Moreover, it was now proposed to modify the courses of instruction in the College with a view to increase the efficiency of such teachers.

(ii) The maintenance of a Law College by the University provided for the training of lawyers, to which in other provinces the Government contributed. In Madras, for instance, the Committee understood that the Madras Law College was a Government institution under the control of the Director of Public Instruction. In Allahabad the Government was contributing liberally to the new Law College. There was a Government Law School in Bombay, and a Government Law Class in Poona.

Moreover, the Government of India in letter No. 756, dated 6th December 1905, clearly regarded Law Classes as having a claim on local administrations for support.

The provision of sound legal training was a matter of importance both to the Government and to the whole Province.

(iii) It was hoped that the Panjab University would not be entirely surpassed by the sister Universities in the matter of providing instruction of a high character, in particular of instituting series of University Lectures by experts.

This was an important feature of a teaching University and had been strongly urged since the passing of the Indian Universities Act. Such a development would require funds.

(iv) There was also a movement to do something to encourage the development of sound Vernacular literature. This was one of the primary objects of the University, but had been entirely neglected owing to lack of funds.

6. As regards item 4 (*b*), it was noted that this would now cease, as Government had taken over the conduct of the Vernacular Middle School Examination; as, however, this Examination was being conducted at a loss by the University, the removal of this Examination would result in a saving of something over a thousand rupees.

7. As regards 4 (*c*) and (*d*), the Registrar explained that the first item represented the pay of the two Assistant Professors transferred from the Government College in 1884, and the second an additional grant made in 1890 on a representation being made by the Syndicate that the teaching of Oriental languages to Government College students required four men at least even when Dr. Stein's services were utilised for one or more of the higher classes in Sanskrit. This second grant was estimated at Rs. 160 a month for two extra teachers and Rs. 100 towards the salary of the Principal of the Oriental College.

The Committee was of the opinion that if Government made its own arrangements for the teaching of Oriental languages up to the M. A. standard, these would cost considerably more than Rs. 5,880 per annum, and that in consideration of the amount of teaching done by the present Principal to Government College classes, it would be reasonable to ask for another Rs. 100 per mensem towards his salary. In the course of 18 years the work had naturally increased.

8. Item 6—Sale of books—was found to include the receipts from the sale of the Calendar, and the Registrar explained that the Calendar cost, about Rs. 1,600 for 250 copies, of which about 100 were according to custom given away, so that only Rs. 600 could be realised on sales.

The Committee agreed to recommend that Calendars should be given free only to institutions which gave their Calendar in exchange, and that all other institutions and persons should pay Rs. 5 per copy.

9. Coming then to expenditure, the Committee considered each item separately.

It was noted that B. I 3—Law Lecturing Staff and Contingencies—would now be increased by the appointment of a wholetime Principal, and institution of a Boarding House, and that it would be further increased if and when the remainder of the new scheme were put into operation.

The Syndicate had recently proposed an increase of item B. 4—Yunani and Vedic Lecturers,—and had doubled the grant to the Sports Tournament Committee, V. 1 *g*.

It was also hoped that the expenditure under II (*a*)—Rewards to Authors—could be increased.

10. A reduction of the number of classes in the Oriental College would mean a saving in the first instance, but as men of higher qualifications were added to the staff, the cost would increase, and the Committee did not consider that any permanent saving could be made under this head.

As regards scholarships the only reduction which the Committee could recommend was item 5 (*a*), Engineering Scholarships. These had been instituted when the class was small to encourage students to take up the subject; the class was now very large, and applicants had to be turned away; the scholarships were consequently no longer necessary.

As regards the Library, it was felt that the expenditure was bound to increase.

11. Item V (*b*).—Registrar's Office Establishment—was discussed in connection with statement 3, and the Committee could not recommend any decrease.

12. The review of the figures supplied being completed, and the recommendations noted above having been agreed to, the Registrar pointed out that even if the Government gave an additional Rs. 9,700 a year, and if about Rs. 5,000 were saved on the Calendar, Medical Examinations, Middle School Examination and Engineering Scholarships, and if the appeal to Ruling Chiefs and Municipalities were answered in the way, it was hoped it would be answered, yet all this would be accompanied by gradually increasing expenditure as the University developed. It might tide the University over a year or two of difficulty, but he did not consider that it would put the University on a permanently sound financial footing.

It was well nigh impossible for the University to develop as it ought, if constant appeals to Government or Ruling Chiefs had to be made to meet the cost not only of every new development, but even of the present arrangements which were admitted to be inadequate.

The Oriental College and the Law College were in urgent need of improvement. The University Library, which was being practically refounded by the liberality of the Government of India, would have to be kept up and extended in the future. There was a growing demand for a development of University teaching for which there were no funds available. Nothing had been done for years to encourage Vernacular literature, or editions of the classics. There were no research scholarships. The Principal of the Oriental College was still Registrar.

Not only was development hindered by lack of funds, but policy also was apt to be fettered by the same consideration. The exclusion, for instance, of a number of private candidates meant a loss of income and an increase of the financial embarrassment.

Of course it was not reasonable to expect that these ambitions could be attained at once, but he thought that the University ought not to continue indefinitely living, as it were, from hand to mouth. The position would become thoroughly satisfactory only when the University had an income sufficient to meet ordinary needs with reasonable developments and something over with which to gradually increase its endowed fund. The great need of the University was a large endowment; an endowment could be created in two ways, either by the gift of money or by the gift of land. It was not likely that Government would be inclined or even able to give the University grants large enough to leave a margin for the building up of an endowment, nor did it seem probable that much could be done towards this by appealing to other contributors. The question of land, however, seemed to be worth consideration. The idea of a University *jagir* had been mooted when the University was founded; but had been dropped presumably because the expenses being comparatively small could be met by subscriptions, fees, and a Government grant of Rs. 21,000.

The idea, however, had recently been revived by a writer in the Panjab Educational Journal in the form of land grants in the new colonies. Squares of land had been given to individuals who had done some service to Government, squares of land had been given to religious societies for charitable purposes. Had not a corporation like the University an equal claim to receive a substantial share in such distribution?

The allotment of a number of squares of land to the University would be a form of endowment, which would cost the Government nothing, and the income which in other cases served to enrich individuals would be devoted to a public purpose of great value to the whole Province.

The Registrar thought that the advantages of such an arrangement should be strongly urged upon the Government.

The Committee agreed to this view, and decided to recommend to the Syndicate that Government be approached in the matter.

A. C. WOOLNER,
Registrar.

CONFIRMED,

S. ROBSON,

Chairman.

CIRCULAR LETTER No. 9.

FINANCIAL COMMISSIONER'S OFFICE:

Dated Lahore, 14th July 1908.

FROM

E. R. ABBOTT, ESQUIRE,

Senior Secretary to the Financial Commissioner, Punjab,

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

SIR,

IN continuation of this office Circular Letter No. 3, dated the 21st March 1908, I am directed to forward a copy of the correspondence noted in the margin, from which it will be seen that the payment of revenue and other demands by means of currency notes sent through the post is permanently prohibited.

Sub-head 721.
File No. 523.

Financial Commissioner's letter No. 27 S., dated the 2nd June 1908.
Punjab Government letter No. 848 S., Revenue, dated the 22nd June 1908.

I have, &c.,

E. R. ABBOTT,

Senior Secretary to the Financial Commissioner, Punjab.

(Translated.)

No. 27 S., dated 2nd June 1908.

From—E. R. ABBOTT, Esquire, Senior Secretary to the Financial Commissioner, Punjab,
To—The Chief Secretary to Government, Punjab.

IN his letter No. 127, dated 14th February 1907, asking for the sanction of Government to an amendment of Land Revenue Rule 181 (*i*) by the insertion of words which have the effect of making the remittance of land revenue by lambardars in currency notes through the post illegal, Mr. Leslie Jones intimated that the Financial Commissioner proposed to consider more fully the advisability of permitting in any form remittances of this nature.

2. The chief arguments adduced against allowing remittances by currency notes are that, even if it were laid down that whole notes only should be remitted under insured cover, a responsibility would be placed upon the tahsil establishment, which ought not in fairness to be imposed upon it, especially in the case of a head-quarters tahsil at some distance from the Government Banking Agency, to which the notes would have to be sent. The responsibility would be far greater and much more undesirable if half notes were remitted, in which case provision would have to be made for the custody of the first halves until the receipt of the second. The risk of theft or disappearance, true or alleged, of the notes and the necessity of acknowledging receipt of the notes would all cause trouble and anxiety to the tahsildar and his staff.

3. On the other hand, it has been asked why a particular class of the population should be denied a convenience which is utilised to the full by hundreds of others: why the convenience of the revenue paying population should be subordinated to the convenience of the tahsil officials, and why an opportunity of still further popularising the use of currency notes should be missed.

4. I am to say that Commissioners and Deputy Commissioners have been consulted, and that the preponderance of opinion is against allowing land revenue and other demands to be remitted by means of currency notes sent through the Post Office, whether insured or uninsured. In this opinion the Financial Commissioner agrees, and he does not propose any change in the existing orders. He thinks that the present facilities for the payment of revenue are sufficient, and that the danger of allowing payment in the manner proposed is too great to justify its being sanctioned.

No. 848 S., Revenue, dated 22nd June 1908.

From—W. M. HAILEY, Esquire, Secretary to Government, Punjab,

To—The Senior Secretary to the Financial Commissioner, Punjab.

IN reply to your letter No. 27 S., dated the 2nd June 1908 (sub-head No. 721 file No. 523), I am directed to say that the Lieutenant-Governor agrees with the Financial Commissioner that it would not be advisable to allow land revenue and other demands to be remitted by means of currency notes sent through the post, and that the present facilities for payment are sufficient.

Senior Secretary to the Financial Commissioner, Punjab,

TO

ALL COMMISSIONERS AND SETTLEMENT COMMISSIONER,
ALL DEPUTY COMMISSIONERS AND SETTLEMENT OFFICERS,
IN THE PUNJAB, AND COLONIZATION OFFICER, JHELUM CANAL.

SIR,

Sub-head 41.
File No. 184.

I AM directed to forward a copy of my letter No. 341, dated 30th April 1908, and of Punjab Government letter No. 125 S., Rev., dated 18th May 1908, conveying the sanction of Government to the proposal that the duty of preserving the stations of the Great Trigonometrical Survey in British districts should be transferred from the Police to the Revenue Department, and to convey the following instructions :—

2. (1) Deputy Commissioners will now obtain from the Superintendent of Police of the district the list of pillars kept in his office under paragraph 702 (2) of the Punjab Police Rules and will forward to each Tahsildar concerned an extract containing the information given in the list respecting the pillars situated in his tahsil. Copies of these extracts shall be forwarded by the Tahsildar to the kanungos and patwaris concerned.

(2) In his field inspections the patwari in whose circle any such pillar is situated should note whether the mark is in good repair in the manner already prescribed for pacca survey marks in the instructions given in Revenue Rule 44.

(3) On the completion of the kharif harvest inspection such patwari shall send a report in the subjoined form to the Tahsildar for submission to the Deputy Commissioner :—

(5) The Deputy Commissioner shall submit an annual return in the above form to the Superintendent, Trigonometrical Surveys, Dehra Dun, on the 1st December in each year, and shall carry out any repairs to those pillars that the Superintendent may desire him to make and for which he may provide funds.

I have, &c.,

E. R. ABBOTT,

Translated. *Senior Secretary to the Financial Commissioner, Punjab.*

No. 341, dated 30th April 1908.

From—E. R. ABBOTT, Esquire, Senior Secretary to the Financial Commissioner, Punjab,
To—The Chief Secretary to Government, Punjab.

I AM directed to invite your attention to Punjab Government Circular No. 3—329, dated 13th June 1866, by which the duty of preserving the stations of the Great Trigonometrical Survey was entrusted in the Punjab to the Police.

2. The Financial Commissioner is of opinion that this duty should now be transferred to the Revenue Staff which is already charged with the duty of reporting on the condition of the ordinary village boundary pillars. He has ascertained that the Inspector-General of Police has no objection to the proposed transfer, and that no funds are provided in the Police Department, such repairs as are made from time to time being paid for by the Deputy Commissioner on bills presented by the Superintendents of Police.

3. I am, therefore, to ask for sanction to the transfer to the Revenue Staff of the duty of preserving these stations, and to suggest that Punjab Government Circular No. 3—329, dated 13th June 1866, be cancelled, and that the Financial Commissioner be authorised to issue the necessary instructions to the Revenue Staff for the performance of this new duty.

No. 125 S. (Rev. & Agri.—Rev.), dated 18th May 1908.

From—W. M. HAILEY, Esquire, Secretary to Government, Punjab,
To—The Senior Secretary to the Financial Commissioner, Punjab.

IN reply to your letter No. 341, dated the 30th April 1908 (sub-head No. 41, file No. 184), I am directed to say that the Lieutenant-Governor has no objection to the proposed transfer from the Police to the Revenue Department of the duty of preserving the stations of the Great Trigonometrical Survey in British districts, and to request that the necessary instructions may be issued to the Revenue Staff for the performance of this new duty. Punjab Government Circular No. 3—329, dated the 13th June 1866, addressed to all Commissioners, is hereby cancelled.

2. A copy of this letter has been forwarded to the Inspector-General of Police and the Superintendent, Trigonometrical Surveys, Dehra Dun, for information.

FINANCIAL COMMISSIONER'S OFFICE.

CIRCULAR LETTER No. 17.

FINANCIAL COMMISSIONER'S OFFICE :

Dated Lahore, 27th August 1908.

FROM

E. R. ABBOTT, ESQUIRE,

Senior Secretary to the Financial Commissioner, Punjab,

TO

ALL REVENUE OFFICERS IN THE PUNJAB.

SIR,

Sub-head 171. File No. 39.

THE Financial Commissioner has recently had under consideration the effect of the orders issued in Mr. Leslie Jones' Circular Letter No. 4, dated 1st June 1906, on the subject of the record of the reduction in rents necessitated by the abolition of the patwar cess and the reduction of the local rate, and from the information he has received he is of opinion that those orders have led to some confusion. The following instructions are accordingly issued in supersession of those given in the above quoted Circular, which should now be considered cancelled.

2. We are bound in equity to see that, in all cases in which the rent is fixed in terms of the land revenue and cesses, the tenant gets the benefit of the reduction in the cesses. We are also bound in law by section 27 (2) of the Tenancy Act to make an alteration in the rent corresponding to any alteration made in the cesses in the case of all tenancies, *both occupancy and non-occupancy.* We must therefore see that the necessary alteration in rent is made in all cases in which the tenant pays the cesses, or a share of them, as such.

3. In the case of the rent of occupancy tenants the change in the entry must be covered by a mutation order. There appears to be no reason why that mutation order should not be a general one for the whole village to the following effect:—

"Whereas by notifications Nos. the local rate for this village has been reduced from to and the patwari cess has been abolished, so that the total amount chargeable as cesses on the land revenue has been reduced from to , I therefore under section 27 (2) of the Punjab Tenancy Act direct that in the case of all tenants whose rent is fixed in terms of the land revenue and cesses, or a fraction thereof, the portion of the rent which represents the cesses shall be reduced in proportion."

4. The Revenue Officer should explain to the patwari how the reduction is to be made in each particular village, and should satisfy himself, by examining each case of such rent in the jamabandi, that the reduction has been properly made. He should also carefully explain to the landlords and tenants the reduction made in such rents and the reasons for it. Collectors and Revenue Assistants should satisfy themselves generally that these instructions have been carried out.

5. The rent paid by the cultivator should in all cases be shown in column 9 of the jamabandi, which is headed "Rent paid by cultivator, rate and amount." This column must show both the amount of the rent and the manner in which it has been calculated, and where it has been calculated in terms of land revenue and cesses, this should be clearly shown—but it will usually be sufficient if the manner of calculating the rate is shown in detail for the first such holding of the village or sub-division of the village, a reference to that holding being given in all subsequent holdings of the kind.

6. Column 11 of the Jamabandi—"Demand with detail of revenue and cesses"—should show only what is payable by the owner of the land. No entry as regards rents payable by tenants should be made in this column.

7. I am to add that the Financial Commissioner is pleased to direct that no mutation fees shall be charged on mutations effected in pursuance of the above orders.

8. In cases in which the required reduction in the rent has already been carried out, no revised order need be passed, unless the Deputy Commissioner sees reason to believe that the interests either of the landlord or the tenant have been substantially injured by the action taken.

I have, &c.,

E. R. ABBOTT,

Senior Secretary to the Financial Commissioner, Punjab.

From—The Hon'ble Mr. E. D. MACLAGAN, C.S., Chief Secretary to Government, Panjab,

To—The Registrar, Panjab University, Lahore.

I AM directed to forward with reference to your letter No. 1237, dated 12th November, 1907, a copy of a letter No. G. D. 16607, dated 17th December, 1907, from the Accountant-General, Panjab, regarding the test audit of the accounts of the Panjab University for the financial year 1906-07.

2. It is understood that the remarks of the Auditor will receive due consideration from the Senate.

In view however of the remarks made in paragraph 2 of the Audit Lists of Objections and Irregularities, I am directed once more to draw attention to the apparent abuse of the system of bonuses to which referenee was made in paragraph 3 of this office letter No. 1504, dated 27th October, 1906.

3. I am also to point out that the income in 1906-07 exceeded the expenditure by Rs. 66,845 against an excess in 1905-06 of Rs. 48,977 only, and to ask that Government may be favoured with a general explanation of this increase.

No. G. D. 16607, dated 14th—17th December, 1907.

From—The Accountant-General, Panjab,

To—The Chief Secretary to Government, Panjab.

I HAVE the honour to report that the accounts of the Panjab University for the financial year 1906 07 have been test audited in accordance with the instructions contained in the Panjab Government letter No. 1029, dated the 28th June, 1885, to my address.

The accounts kept up during the year are the same as before, with the exception of the Provident Fund Account which was opened during the year. The accounts are detailed below :—

(1) Current Account.

(2) Special Endowed Trust Account.

(3) Unendowed Special Subscriptions and Donations.

(4) The General Endowment Fund Account.

(5) The Oriental College Account.

(6) Pension Contribution Fund Account.

(7) Provident Fund Account.

Separate Cash Books and a separate floating account with the Bank of Bengal, Lahore, are kept up for each of these seven accounts.

The books of Accounts Nos. (1) and (5) were examined for three months, and those of the other Accounts for twelve months. For these months the vouchers for payments were examined as well as the counterfoils of receipts granted, and both vouchers and counterfoils were compared with the entries in the Cash-Book and found correct. The transactions for these months were traced from the Cash-Books into the Ledgers, and it was found that the postings had been correctly made. By an examination of this nature the Auditor has satisfied himself generally that the expenditure incurred has been duly authorized, that the financial rules have been observed except in the matter of expenditure in excess of Budget grants, and that the audit carried out by the Auditor appointed by the University has been generally correct. I append a statement of a few irregularities that were noticed.

An explanation of the excess over Budget grants has been furnished by the University officials in the form of a statement which is hereto attached.

It has been ascertained that the Government grants to the University have been legitimately expended on the objects for which they were sanctioned, and the safe custody receipt of the Bank of Bengal, Lahore, for the Government Securities deposited with the Bank, has been compared with the entries relating to those securities in the Acconnts of the University. The Securities stand in the books at the nominal value of Rs. 6,10,200; of this account Rs. 3,16,900 appertain to the Special Endowment Trust Accounts, Rs. 1,89,600 to the General Endowment Fund, Rs. 81,700 to the Current Account, Rs. 4,500 to the Pension Contribution Fund, Rs. 1,600 to the Unendowed Special Subscriptions and Donations, and Rs. 15,900 to the Provident Fund Account. The Securities include Government Promissory Notes for Rs. 81,700 purchased during the year, of which Rs. 6,300 were purchased for the Special Endowed Trust Account, Rs. 70,000 for the Current Account, Rs. 500 for the Pension Contribution Fund and Rs. 4,900 for the Provident Fund Account. Rupees 11,000 in Government Promissory Notes were transferred during the year from the Pension Contribution Fund to the Provident Fund and the invested funds, of the latter now therefore stand at Rs. 15,900 as already stated.

The financial condition of the University at the close of the year was sound; the year's receipts having exceeded the expenditure by Rs. 66, 844-8-6.

I submit the usual General Cash Balance Statement.

The audit fee of Rs. 100 will be credited as usual as a receipt of the Provincial Revenues under the head XXV "Miscellaneous"—"Fees for Government Audit." As it was found necessary to depute an officer to perform the test audit, as an extra duty out of office hours, an honorarium of that amount has been granted to him.

LIST OF OBJECTIONS AND IRREGULARITIES.

1. In some instances Superintendents of Examination Centres have not shown any credits on account of sale-proceeds of articles purchased for the purposes of the examination. In cases where such articles have not been sold certificates to this effect should be furnished.

2. The honoraria to Assistant Registrar and Head Clerk and the bonuses to the clerks have been paid as in the previous year with the exception that the Assistant Registrar was given Rs. 800 instead of Rs. 500. The office work of the Assistant Registrar and the Clerks was no doubt increased by reason of the various examinations, and the publication of results, but these honoraria nevertheless appear to be inadmissible, as the sanctioned pay of the appointments is intended to cover all work connected with Examinations even when performed out of office hours. A bonus or honorarium is granted to an officer only for work which is special and outside the ordinary course of his duties,—*c.f.* Article 72 (*a*) of the Civil Service Regulations. Attention was drawn to this point in my report for last year also.

3. In several cases thumb impressions and seals of payees have not been attested by the disbursing officer in the case of vernacular vouchers; a brief abstract in English has not been given.

4. The bill for expenses in connection with the Engineering Examination includes an item less than a rupee in amount on account of soda water and ice. The charge, though insignificant, is an unusual and special one and therefore requires the sanction of the Syndicate.

5. Certificates from the Vice-Chancellor have not been attached to the vouchers in three cases in which Rs. 1,878-9-11 have been drawn on account of confidential charges in connection with the conduct of examination. The Syndicate also does

not appear to have accepted the suggestion made last year that a certificate from the Head of the Office to the disbursement of the amount should accompany such bills.

6. Rupees 20 were advanced to Mr. S. K Rudra for traveling expenses, but the amount does not appear to have been deducted from his final travelling allowance bill, the full amount of which was paid to him. There is nothing to show that the advance was recovered from him. This item of Rs. 20 was not brought to account in the Cash-Book, nor was it shown in the Register of Advances provided for the purpose. Similarly a sum of Rs. 33-8-0 was paid to Mr. Peter Ponsonby in advance for travelling expenses on the 21st March, 1906. This also was not brought to account until October, 1906, *i.e.*, 7 months after when the officer concerned submitted his travelling allowance bill, and the advance was adjusted and the amount shown as having been paid in that month. This item was also not shown in the Register of Advances.

7. *Register of Advances made to Superintendents of Examinations :—*

(*i*) In the column "Name" the designation merely of the officer to whom the advance was made has been shown. This is not enough because advances are recoverable from the persons to whom they are made.

(*ii*) The items in the Register should have been signed by the Assistant Registrar each time an advance was paid.

8. A sum of Rs. 433-5-0 was received in cash on account of Law College Fees, &., 31st May, 1906, and on 1st June, 1906, Rs. 59-2-0 in cash and Rs. 4,625, by cheque were also received by the Cashier. No money, however, was paid into the Bank till the 2nd June, 1906, when Rs. 258-9-0 only instead of Rs. 492-7-0 (the cash in hand of the Cashier) were credited. It is not safe to allow such large amounts to remain in the hands of the Cashier for so many days. Similarly cheques for Rs. 75-12-0 and Rs. 342 were received on 26th and 29th October, 1906, but were not sent to the Bank until the 1st of November, 1906. Money received during the day should as far as possible be sent to the Bank the same day, or on the next working day at latest.

9. No proper imprest account has been kept by the Cashier. He recoups his permanent advance by preparing a contingent bill and attaching the receipts given by the Assistant Registrar. This system is irregular and unbusinesslike, and in future all payments from the imprest should be entered in the imprest account provided for the purpose.

10. Rupees 750 have been placed at the disposal of Mr. G. S. Brett, for the new University ground. No accounts have been furnished by him showing how the money was spent.

11. The Revd. H. J. Hoare, Fellow of the University, has drawn travelling allowance for attending a Senate meeting. He has charged Rs. 7-2-0 on account of carriage hire and food spent in the course of his journey of one day. The maximum amount admissible is Rs. 7, as a reference to the rules communicated in a printed letter regarding the grant of travelling allowance to Fellows will show. This extra charge should not have been passed.

12. The accounts of the Special Endowment Fund Account for August, 1905, have not been signed by a member of the Board of Accounts, as required by the University Calendar.

13. *Voucher No.* 138 *for February*, 1907, *Khalsa College Scholarships. Nabha-Jind Scholarship for January*, 1907, *for Rs.* 14.

The bill has been paid without the payment order having been signed by the Registrar,—*vide* University Calendar.

14. *Unendowed Special Subscriptions and Donations.*

In many cases the proper printed forms of certificates required to be furnished by the drawing officer that the attendance was regular have not been used.

15. Mr. B. C. Chatterjee, Head Master, Mission High School, Gujranwala, travelled to Jullundur to supervise an Examination. He has drawn daily allowance at Rs. 5 per day, although he is a 2nd class officer and does not come under the definition of 1st class officers. Moreover, Rs. 5, *i.e.* one day's daily allowance has been paid in excess to

Mr. Chatterjee as he actually halted at Jullundur for 12 days and not for 13 days for which daily allowance has been drawn. The necessary recoveries should now be made from Mr. Chatterjee who should be allowed the travelling allowance admissible to an officer of the 2nd class.

16. A superintendent is authorised to entertain a clerk for the days of examination and to pay him a maximum salary of Rs. 16 per mensem. In one case, however, Mr. H. Farmer, Head Master, Government High School, Gujrat, engaged a clerk on Rs. 20 per mensem which was not objected to. This charge should not have been passed.

17. Messrs. A. C. Woolner and P. N. Dutt have drawn their increments from the 17th April, 1906, and 7th July, 1906, instead of from the beginning of May and August, respectively. Article 151 of the Civil Service Regulations which governs the accrual of increments of officers in the public service is clear on the point raised above. There is no reason why the officers of the Panjab University should be exempted from the rules in the Civil Service Regulations, and the matter should be referred to the Chancellor for final decision.

18. The charge noted below appears to be an unusual one and requires the sanction of the Syndicate.

Rupees 1-5-0 charged by Professor P. C. Mukerjee on account of discount on a cheque at 8 per cent. The nature of the charge should be fully explained.

FROM

E. R. ABBOTT, ESQUIRE,

Senior Secretary to the Financial Commissioner, Punjab,

To

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

SIR,

Sub-head 251.
File No. 393.

I AM directed to invite your attention to the orders contained in paragraph 3 of Punjab Government resolution No. 43, dated the 6th August 1885, a copy of which is prefixed to Colonel Grey's Manual of Construction and Management of District Canals, in regard to the necessity of obtaining the approval of Government in the Department of Public Works to designs for all inundation canals before the work of excavation is put in hand, and to say that those orders are still in force and must be strictly adhered to, more especially as regards schemes to construct or extend inundation canals taking water from the Jhelum, Chenab, Ravi, Beas and Sutlej rivers down to their junction with the Indus. No work in connection with such a scheme must be undertaken until it has received the general approval of Government in the Public Works Department.

I have, &c.,

CIRCULAR LETTER No. 22.

FINANCIAL COMMISSIONER'S OFFICE :
Dated Lahore, 15th September 1908.

FROM

E. R. ABBOTT, ESQUIRE,
Senior Secretary to the Financial Commissioner, Punjab,

TO

ALL COMMISSIONERS AND SETTLEMENT COMMISSIONER,
ALL DEPUTY COMMISSIONERS, SETTLEMENT OFFICERS,
AND COLONIZATION OFFICER, LOWER JHELUM CANAL.

SIR,

File No. $\frac{71}{194}$.

WITH Mr. Leslie Jones' Circular Letter No. 2082, dated 28th March 1905, certain correspondence was circulated relative to the policy to be adopted on the subject of the reduction, where excessive, of the existing number of lambardars, which was approved by the Local Government in Mr. Diack's letter No. 52, dated 18th February 1905. That policy has now been reaffirmed by the Local Government; but it has been decided that it is inadvisable that the Settlement Officer should announce his proposals to the parties affected by them, and that the Financial Commissioner should have to decide on those proposals before vacancies actually occur. The procedure to be followed has been laid down in correction slip No. 100 R. C., dated the 31st August 1908, to Revised Revenue Circular No. 26, to which I am accordingly directed to invite your attention.

I have, &c.,

E. R. ABBOTT,
Senior Secretary to the Financial Commissioner, Punjab.

No. 196.—*Notification.*—In exercise of the powers vested in him by sections 9 (*d*) and 65 of the Excise Act, 1896, and with the previous sanction of the Punjab Government, the Financial Commissioner of the Punjab is pleased to make the following rules to regulate the passing out of spirit, for the supply of the Patiála State from licensed distilleries in the Punjab, in accordance with the provisions of Punjab Government notification No. 910, dated 6th April 1908:—

RULES.

1. (*a*) The Manager of any distillery licensed in the Punjab under section 5 of the Excise Act, of which the proprietors secure a contract from the State of Patiála for the supply of such quantity of spirit as that State may require, shall be the Agent of that State for the despatch of spirit in pursuance of the contract.

(*b*) Whenever the Manager of any such distillery obtains the requisite pass for the despatch of any consignment of spirit in pursuance of the said contract, he shall be shown in the pass as the consignor, and the Superintendent of the Excise Department, Patiála State, shall be shown as the consignee.

(*c*) No pass shall be granted to authorise the despatch of any consignment under these rules if the issue of such spirit prejudices the prompt and adequate supply to licensed vendors in the Punjab of spirit required by them, and until the Manager of the distillery has executed and given a bond binding himself, in respect of the consignment to be despatched, to produce a certificate in the form appended to these rules and binding himself to pay such duty in respect of any consignment despatched as may be demanded from him in accordance with the provisions of clauses (*d*) and (*e*) of this rule.

(*d*) If such certificate is not produced within a reasonable time after the expiration of the period of currency of any pass, as noted thereon, the Collector of the district in which the distillery is situate shall recover from the Manager duty at a rate not less than that for the time being fixed by the Punjab Government under section 7 of the said Act.

(*e*) If such certificate is produced within a reasonable time after the expiration of the period of currency of any pass, then—

(*i*) If the certificate shall show delivery of any consignment to have occurred in full both in respect of bulk and strength, with no greater variation than five per centum in either respect, the Collector shall write off the bond in respect of such consignment as discharged :

(*ii*) But if the certificate shall show a variation in respect of bulk or strength greater than five per centum in respect of any consignment, then the Collector shall take steps to recover from the Manager duty, at a rate not less than that for the time being fixed by the Punjab Government under section 7 of the Act, upon such portion of a consignment as is not accounted for, after due allowance for a five per centum variation in respect of bulk or strength has been made.

2. The Collector granting the pass to authorise the despatch of any consignment under these rules may extend the period of currency thereof, if extension is applied for owing to delay in transit of a consignment, or for any other sufficient reason.

3. All spirit consigned by a Manager of a distillery under these rules shall travel in casks securely sealed and shall be despatched by railway from the place where the distillery is situate to Patiála railway station, and the pass shall specify the weight of each sealed cask as ascertained in the distillery at the time of its issue. Each cask shall be weighed at Patiála immediately upon arrival and in the state in which it arrives, and in case any seal affixed to a cask is not intact, the condition of such seal shall be specially noted.

4. The Excise Commissioner shall prepare and furnish for use by any Manager of a distillery consigning spirit under these rules a form of bond which shall, subject only to such alterations as the different circumstances require, be in conformity with the form of bond approved in respect of removals of spirit from licensed distilleries for delivery to the Supply and Transport Department.

SIMLA:

E. R. ABBOTT,
Senior Secretary to the Financial Commissioner, Punjab.

CIRCULAR MEMO. No. 7.

FINANCIAL COMMISSIONER'S OFFICE:

Dated Lahore, 19th September 1908.

COPY of the following forwarded to all Commissioners and Deputy Commissioners in the Punjab for information.

2. The necessary Correction Slip to Revised Revenue Circular No. 16 will issue in due course.

By order,

R. C. BOLSTER,

Junior Secretary to Financial Commissioner, Punjab.

No. 1814, dated 27th May 1908.

From—A. H. DIACK, Esquire, C. V. O., Settlement Commissioner, Punjab,
To—The Junior Secretary to the Financial Commissioner, Punjab.

BY paragraph 8 of the Proceedings of the Punjab Government in the Financial Department No. 1395, dated 25th April 1906, it is provided that warm clothing may be provided to menials who spend much time on tour. This rule has hitherto been interpreted in this office as applying only to menials who are not supplied with liveries in accordance with paragraph 3 of the above Proceedings. It is however susceptible of another interpretation, as will be seen from the following extract from a letter from Major Beadon, Settlement Officer of Delhi :—

"In paragraph 2 of your letter you rule that under the Circular (Correction Slip No. 16, R.C, dated 5th June 1907) the orderlies are not entitled to both liveries and blankets. I am afraid I have read the circular to have a contrary meaning. Rule 29 says that the rules relate to the supply of liveries, belts and warm clothing, and livery is defined as 'a distinctive uniform clothing, including scarlet livery.' Sub-rule 7 reads 'warm clothing may take the form of warm coats or blankets, *not* being livery': and sub-rule 8 shows the grounds on which watchmen and '*other menials*' may be supplied with warm clothing.

I venture to suggest that livery and warm clothing are quite distinct : the former is given to orderlies in order that the dignity of an office may be upheld and the latter is a personal grant to a poorly-paid menial to give some creature comfort. I trust that you will be inclined to my way of thinking and interpreting the rules.'

The wording of the rules is certainly ambiguous, and I beg to be informed which of the two above interpretations is the correct reading of the intention of Government.

Endorsement by the Financial Commissioner, Punjab.

No. 420, dated 17th June 1908.

COPY of Settlement Commissioner Punjab's letter No. 1814, dated 27th May 1908, forwarded to D.J. Boyd, Esquire, Under-Secretary to Government, Punjab, Revenue Department, for favour of orders.

No. 1412 (Financial), dated 20th July 1908.

From—The Hon'ble Mr. E. D. MACLAGAN, C. S., Chief Secretary to Government, Punjab,
To—The Junior Secretary to the Financial Commissioner, Punjab.

WITH reference to your endorsement No. 420, dated 17th June 1908, asking to the informed of the correct interpretation of rule 8 in Punjab Government Resolution No. 1395, dated 25th April 1906, I am directed to say that blankets may be supplied to orderlies who (*i*) are much employed on night work, (*ii*) spend much time on tour, or (*iii*) are employed on duty in hill stations, in addition to liveries allowed under rule 3 of the resolution.

SIR,

File No. 188.
Sub-head 601.

IN forwarding three sets of Statements I—VI in English, together with a supply of forms in the Vernacular, for use in writing the Court of Wards Report for the year ending September 30th 1908, I am directed to invite your careful attention to the alterations that have been made in the statements themselves and the foot-notes appended to them as explained in the following remarks of the Financial Commissioner.

2. In paragraph 2 of last year's Provincial Report the Financial Commissioner noticed the amplification and re-arrangement that had been effected in the returns at the date of his writing, and in paragraph 3 of his review His Honour the Lieutenant-Governor remarked :—"The alterations ...... are an improvement and it is now possible to appreciate more clearly the manner in which balances are invested, while the statistics of advances to tenants and of house property, &c., are useful and interesting".

3. The returns appeared however still susceptible of general improvement. To this end therefore, and with a view to further securing the *desiderata* noticed by the Lieutenant-Governor, the Financial Commissioner has made the additions and alterations detailed in the Note annexed, which compares the new statements with those of last year.

4. In writing the body of the report brief accounts should be given of the matters enumerated in clause (*iv*) of paragraph 35 of Revised Revenue Circular No. 57. Among the points noted under heading (*e*) "Management of the landed property" should be noted (*i*) the proportion of recoverable arrears of rent shown in column 15 of Statement II, which are (*a*) not immediately recoverable (on account of suspension of land revenue or other similar cause), and which are (*b*) immediately recoverable on account of demand overdue, and (*ii*) the steps that are being taken for their recovery (*vide* this office Circular Letter No. 101-S., dated 5th June 1906).

I have, &c.,

R. C. BOLSTER,

Junior Secretary to the Financial Commissioner, Punjab.

FINANCIAL COMMISSIONER'S OFFICE.

CIRCULAR LETTER NO. 25.

FINANCIAL COMMISSIONER'S OFFICE:

Dated Lahore, 9th October 1908.

FROM

R. C. BOLSTER, ESQUIRE,

Junior Secretary to the Financial Commissioner, Punjab,

TO

ALL COMMISSIONERS IN THE PUNJAB.

SIR,

IN this office circular letters Nos. 5078, dated 20th August 1891, and 864, dated 8th February 1892, you were required to obtain from the Deputy Commissioners of your division and forward to the Financial Commissioner for information quarterly returns showing the progress made in the work of destruction of useless records.

2. The power therefore to give the assistance necessary to wipe off arrears and the responsibility for keeping destruction work thoroughly up to date now rests with you. I have, &c.,

R. C. BOLSTER,

Junior Secretary to the Financial Commissioner, Punjab.

MEMO. No. 5382.

FINANCIAL COMMISSIONER'S OFFICE:

Dated Lahore, 9th October 1908.

COPY of the following forwarded to all Commissioners, Settlement Commissioner, all Deputy Commissioners and Settlement Officers and Director of Land Records, Punjab, for information and guidance.

By order,

E. R. ABBOTT,

Senior Secretary to the Financial Commissioner, Punjab.

No. 240 S, dated 22nd July 1908.

From—E. R. ABBOTT, Esquire, Senior Secretary to the Financial Commissioner, Punjab,

To—The offg. Secretary to Government, Punjab.

IN paragraph 6 (*ii*) of Mr. Danson's letter No. 282, dated 26th March 1907, a recommendation was made that where a patwari travelled by rail otherwise than on transfer article 1011 (*d*) of the Civil Service Regulations should be made applicable if the journey by rail were authorised by the Collector. The orders of Government were contained in Mr. Maclagan's letter No. 1850, Revenue, dated 22nd May 1907, to the effect that no alteration should be made in the status of patwaris in consequence of the abolition of the patwar fund. As no rule previously existed under which patwaris were allowed travelling allowance from the patwar fund for such journeys, the Accountant-General has held that it is not admissible.

2. The Financial Commissioner, however, has reason to believe that travelling allowance was usually given in some form or other from the patwar fund to patwaris who travelled by rail under the orders of the Collector, otherwise than on transfer or to attend a court, and that the practical effect of the Government orders has been to operate unfavourably to patwaris in this respect. In any case it is sometimes advisable in the public interest that a Collector should require a patwari to travel by rail, and it is obviously unjust in such a case to make the patwari pay the fare out of his own pocket.

3. In these circumstances I am to recommend that, in the case of journeys other than on transfer or to attend a court, article 1011 (*d*) be now made applicable to patwaris, if travelling by rail is authorised by the Collector; and that under article 1012 an allowance of the fare of the lowest class be held admissible in the case of such journeys.

No. 2567 S. (Revenue), dated 8th September 1908.

From—W. S. HAMILTON, Esquire, offg. Secretary to Government, Punjab,

To—The Senior Secretary to the Financial Commissioner, Punjab.

IN reply to your letter No. 240 S., dated the 22nd of July 1908 (sub-head 81, file No. 158), I am directed to convey sanction to the recommendation that patwaris should draw travelling allowance for journeys by rail as officers of the fourth class, under articles 1011 and 1012, Civil Service Regulations, in the case of journeys, other than on transfer or to attend a court, when travelling by rail is authorised by the Collector.

2. The Accountant-General, Punjab, has been informed.

FINANCIAL COMMISSIONER'S OFFICE.

CIRCULAR LETTER No. 26.

FINANCIAL COMMISSIONER'S OFFICE,

Dated Lahore, 20th October 1908.

FROM

H. M. COWAN, ESQUIRE,

Offg. Junior Secretary to the Financial Commissioner, Punjab,

TO

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

SIR,

File No. $\frac{131}{280}$.

IN the circular memo. of this office No. 37, dated 20th August 1888, the substance of which is reproduced in paragraph 5 at page 8 of Revised Revenue Circular 38 (Pensions), you were required to obtain from the Deputy Commissioners of your division and submit to this office returns regarding persons in enjoyment of educational pensions.

2. The duty of seeing that recipients of educational pensions are being properly educated is one which the Financial Commissioner has decided to leave to Commissioners. The returns should accordingly in future be submitted for scrutiny to Commissioners, the date (1st of April) prescribed in Revised Revenue Circular 38 being observed, and need not be forwarded to the Financial Commissioner unless special orders are required in any case.

3. The necessary correction slip to Revised Revenue Circular 38 is under issue.

I have, &c.,

H. M. COWAN,

Offg. Junior Secretary to the Financial Commissioner, Punjab.

CIRCULAR LETTER No. 27.

FINANCIAL COMMISSIONER'S OFFICE:

Dated Lahore, 20th October 1908.

FROM

E. R. ABBOTT, ESQUIRE,

Senior Secretary to the Financial Commissioner, Punjab.

TO

ALL COMMISSIONERS, SETTLEMENT COMMISSIONER, DEPUTY COMMISSIONERS AND SETTLEMENT OFFICERS IN THE PUNJAB.

SIR,

Sub-head 51.
File No. 172.

I AM directed to invite your attention to this office Correction Slip No. 25 R., dated the 8th October 1908, amending Land Revenue Rule 195 regarding tri-junction pillars, and to convey the following remarks.

2. Where the cost of stone is not prohibitive, stone is much better than masonry for tri-junction pillars. Revenue Rule 195 as now amended leaves it to the Collector to say whether the tri-junction pillar is to be of masonry as there specified, or a single block of stone, 3′ × 1½′ × 1½′, half to be underground.

3. Similarly, for ordinary boundary pillars, stone slabs are better than mud. Rule 194 allows stone to be prescribed.

4. Section 103 (1) requires the Revenue Officer to give the landowners 30 days within which to erect pillars. As regards tri-junctions he should give the legal notice, at the same time informing the landowners that he is willing to arrange to erect blocks of stone for them at a given cost. Probably all will leave it to him, and after 30 days he can arrange to do the whole work through a contractor.

I have, &c.,

E. R. ABBOTT,

Senior Secretary to the Financial Commissioner, Punjab.

MEMO. No. 5628.

FINANCIAL COMMISSIONER'S OFFICE:

Dated Lahore, 22nd October 1908.

COPY of the following forwarded to all Commissioners and Deputy Commissioners in the Punjab, for information and guidance.

By order,

H. M. COWAN,

Offg. Junior Secretary to the Financial Commissioner, Punjab.

No. 544, dated 5th September 1908.

From—R. C. BOLSTER, Esquire, Junior Secretary to the Financial Commissioner, Punjab,

To—The Assistant Secretary to Government, Punjab, Financial Department.

I AM to invite your attention to Mr. Hailey's letter No. 177 S., dated 20th May 1908, which conveyed sanction to the adoption of the rule proposed by the Financial Commissioner for regulating the grant of travelling allowance to candidates who are *patwaris* or already in Government service for journeys to attend *kanungo* examinations.

2. At present the Director of Land Records has to countersign the travelling allowance bills of (1) Naib Tahsildars and (2) kanungos who claim travelling allowance for appearing at the Naib Tahsildars' and the kanungos' examination. There is no rule requiring his countersignature in the case of Naib Tahsildars, but the Accountant-General refuses to pass the bills without it: in the case of kanungos his signature is at present necessary, as the result of the kanungos' examinations are not published in the Gazette nor communicated to the Accountant-General.

3. The Financial Commissioner recommends that, in order to save correspondence, in future a certificate, to be given by the Deputy Commissioner and attached to the bill, that "B. D. passed the—

Naib Tahsildars' } examination in (August) 190 , *vide*—
Kanungos' }

Gazette notification No.
Director of Land Records' letter No.

was a Government official at the time of the examination and has not previously drawn travelling allowance more than once for this examination" should in future be accepted without the Director of Land Records' countersignature and without any audit by the Accountant-General.

4. The Accountant-General, who has been consulted, considers that the sanction of Government should be obtained to the change of system involved.

No. 131 (Rev. & Agri.—Rev.), dated 29th September 1908.

From—W. S. HAMILTON, Esquire, offg. Secretary to Government, Punjab,

To—The Junior Secretary to the Financial Commissioner, Punjab.

IN reply to your letter No. 544, dated the 5th September 1908, I am directed to say that the Lieutenant-Governor accepts the recommendation of the Financial Commissioner that travelling allowance bills of Naib Tahsildars and kanungos for journeys to attend Naib Tahsildars' and kanungos' examination should, in future, be supported by, and passed on the authority of, a certificate to be given by the Deputy Commissioner in the form proposed.

2. I am to request that the necessary additions may be made to paragraphs 21 and 5 of Revised Revenue Circular Nos. 22 and 29 respectively.

CIRCULAR MEMO. No. 11.

FINANCIAL COMMISSIONER'S OFFICE:
Dated Lahore, 12th December 1908.

COPY of the following is forwarded to all Commissioners and Deputy Commissioners in the Punjab for information, with the remark that it is possible that the reluctance shown by some assignees to take advantage of the Descent of Jagirs Act may be due to a doubt on the matter mentioned in the letter. In such cases the ruling may be explained to them.

By order,
R. C. BOLSTER,
Junior Secretary to the Financial Commissioner, Punjab.

No. 6523, dated Lahore, 3rd December 1908.

From—R. C. BOLSTER, Esquire, Junior Secretary to the Financial Commissioner, Punjab,

To—The Deputy Commissioner of * * *

IN the statement accompanying your letter No. * * * * regarding action taken under the Descent of Jagirs Act (Act IV of 1900), it is said that * * * "would gladly accept the rule of primogeniture, but he has no son and is thinking of applying for permission to adopt. He points out that, if he adopts and then a son is born, the whole jagir will presumably go to the adopted son and nothing to the real son. Hence he is not prepared to move in the matter."

I am directed by the Financial Commissioner to say that it is open to the Jagirdar under section 8 (1) (*b*) of the Act to accept a rule of descent under which the assignment shall devolve to a single person as impartible property by the rule of primogeniture, and that it shall devolve on a legitimate natural son in preference to an adopted son. If * * is prepared to accept such a rule of descent, he may be given the opportunity of executing a written instrument to that effect, and on its submission Government will be asked to issue the necessary declaration under section 8 (1).

CIRCULAR LETTER No. 33.

FINANCIAL COMMISSIONER'S OFFICE:
Dated Lahore, 21st December 1908.

FROM

R. C. BOLSTER, ESQUIRE,

Junior Secretary to the Financial Commissioner, Punjab,

TO

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS
IN THE PUNJAB.

SIR,

Sub-head 601.
File No 318.

IN continuation of this office letter No. 2126, dated 4th April 1908, on the subject of powers proposed to be delegated to Commissioners and Deputy Commissioners, I am to invite your attention to the notifications of this office Nos. 253 and 254, dated 30th November 1908, the first of which presents a re-draft of Part II of Revised Revenue Circular No. 57 (Court of Wards), conferring enhanced powers on local officers, while the second cancels certain existing rules and makes an alteration in another rule in Part III.

2. Detailed comment upon the new rules is not called for. It will be sufficient to state that the omission in the rules contained in notification No. 253, dated 30th November 1908, of any such expression as "when provision has been made in the sanctioned scheme of management" is explained by the following addition (new paragraph 12-A) which will be made in the body of the circular, *viz* :—

Powers of Commissioners and Deputy Commissioners under the Court of Wards Act.

12A. "In Part II are shown the powers that may ordinarily be exercised by Commissioners and Deputy Commissioners, *i.e.*, in cases not either explicitly or implicitly provided for by schemes of management. In the original or any revised scheme of management the Financial Commissioner may sanction general principles of administration or schemes of expenditure, and, where this is the case, local officers need not consider themselves fettered by the special rules contained in Part II. Doubtful cases should, however, be referred for the orders of the Financial Commissioner."

3. In conveying tentative sanction to the new rules, His Honour the Lieutenant-Governor has enjoined upon Deputy Commissioners care in the exercise of the increased powers now conferred on them, and has called for a report upon the working of the new rules after the expiry of a year. The report should be submitted to this office through Commissioners of divisions by the 1st December 1909, and should deal with the period ending 30th September 1909.

4. The following printer's errors in notification No. 253 should be corrected, *viz.*—

(*i*) "minor" for "incur" and "excess" for "income" in rule x.

(*ii*) "make" for "involve" in rule xvii.

(*iii*) "restitution" for "institution" in rule q.

5. A reprint of Revised Revenue Circular No. 57 is under preparation.

I have, &c.,

R. C. BOLSTER,

Junior Secretary to the Financial Commissioner, Punjab.

NOTIFICATIONS.

The 19th December 1908.

No. 265.—Notification.—The Court of Wards for the Punjab having, in exercise of the powers conferred by section 6 of Punjab Act II of 1903, made an order assuming the superintendence of the persons and property of Sultan Khan and Amir Khan, sons of Fateh Khan, Kassar, in the Jhelum district of the Punjab, the said Sultan Khan and Amir Khan being land-holders and minors within the meaning and for the purposes of the said Punjab Act II of 1903, it is hereby notified under section 9 of the said Act that the Court of Wards with effect from the 14th December 1908 assumes superintendence of the persons and property of the said minors.

The said Court further specifies the Jhelum district as the district the Deputy Commissioner of which is put in charge on behalf of the said Court.

No. 266.—Notification.—It is notified for general information that the following *conditions* subject to which the sale by auction of any license for the retail vend of opium or poppy-heads shall be conducted and the instalments in which and the time and place at which the fee for any such license shall be paid, made by the Financial Commissioner of the Punjab under the authority conferred upon him by No. 53 (5) of the rules made by the Lieutenant-Governor of the Punjab under sections 5 and 13 of the Opium Act, I of 1878, and published in Punjab Government notification No. 232, dated the 15th of December 1900, as subsequently amended, shall come into force with effect from the date of this notification :—

1. Auctions shall be held either by the Collector personally or under his orders by an Assistant Commissioner. When the auction cannot be held by the Collector or an Assistant Commissioner it may be entrusted, under the Collector's orders, to an Extra Assistant Commissioner.

2. Notice of auctions shall be duly published as widely as is necessary before they are held, and before the proceedings at any auction are commenced it shall be clearly announced that bidders shall be bound by all the conditions imposed by this notification.

3. Except with the previous sanction of the Excise Commissioner, each shop shall be sold separately and not in a group with others, and prior to the taking of any bids the locality of each shop shall be distinctly stated and any special conditions which may have been duly approved in connection with the business to be transacted at it under the license to be sold shall be announced.

4. The officer holding the auction shall exclude any person whose name by the Collector's order has been put on a list of persons debarred from holding any license, because he has failed to carry on satisfactorily business under any license granted under the Excise or Opium Acts or has been convicted or suspected on reasonable grounds of the commission of any offence against the excise administration or of assisting or conniving at such commission. As long as the name of any person is on the list no license shall be granted under these conditions in any district to him or any person acting in partnership or association with him. Any name may be removed from any district list by order of the Excise Commissioner. The officer holding the auction shall also exclude any person whose exclusion is ordered by the Collector because of his notorious bad character or for any other sufficient reason to be recorded in writing, and the officer holding the auction shall refuse to accept any bid by an excluded person or which he has reason to believe is made in the interest of such person.

5. No person shall be permitted to bid for another or for a parnership unless he is duly authorised to do so and satisfies the officer holding the auction that he is so authorised.

6. No person who has purchased a charas or a bhang license shall be permitted to bid for an opium license in the same town or village.

7. No person shall be permitted to bid unless he shall previously have made a deposit for the right to bid of the sum of Rs. 25 in a Government treasury and shall, if required to do so by the officer holding the auction, produce at the auction the treasury receipt for such deposit or unless at the auction he deposits for the right to bid the sum of Rs. 25 with the officer holding the auction.

8. The Collector shall, in consultation with the Excise Commissioner, determine the highest and lowest annual fee at which each shop may reasonably be licensed, but the highest fee so determined shall not be made public.

9. The bids shall be started at the lowest fee determined under the preceding condition and shall be for the annual fee of each shop.

10. No bid in advance of a bid already made shall be accepted unless it is in excess of that bid by such sum as the officer holding the auction may fix generally or for any particular shop or shops before the bidding commences.

11. The officer holding the auction shall record the name of each person making a bid and the amount bid by him, but he may decline to record any bid until the bidder shall have deposited in his hands a sum equal to 5 per cent. of the amount of such bid, and in the case of a bid which is more than the maximum reserved price fixed for any shop, the officer holding the auction may refuse to record such bid until the bidder shall have deposited in his hands a sum equal to 25 per cent. of the amount of such bid.

12. The officer holding the auction may refuse to receive any bid which he deems to be purely speculative.

13. If the lowest fee determined under condition 8 above as reasonable for any shop is not bid, the license shall not be disposed of and a separate report regarding such shop shall without delay be made to the Excise Commissioner with whose sanction the shop may be closed either permanently or until a person willing to take it up at the reserved price shall come forward, or it may be resold at another auction to be held for it, or it may be carried on by the Collector under direct mangement with a temporary staff, the number and remuneration of such temporary staff as well as the period for which it may be employed being subject to the sanction of the Financial Commissioner.

14. The officer holding an auction may finally accept the highest bid for any shop made by any person allowed to bid, provided that it is not less than the minimum fee nor more than the maximum fee determined for that shop under condition 8 above.

15. On such acceptance of his bid the bidder shall immediately sign an undertaking which shall be countersigned by the officer holding the auction to the effect that he will make the payments required by these conditions and will maintain the shop under the conditions which are in force, and will be responsible to Government for any loss caused by his failure to do so at the fee bid by him.

16. If the deposit of Rs. 25 made the bidder whose bid has been approved as well as any other deposit made by him during the course of the auction exceed one-sixth of the annual fee for which the shop has been sold, so much of the amount deposited as is in excess of such one-sixth shall be repaid to the bidder if he so desires, or, if he consents, shall be credited towards payment of future monthly instalments of the annual fee – otherwise the bidder shall, within 7 days of the date of the auction, make good by payment into the Government treasury the amount whereby one-sixth of the annual fee bid by him exceeds the deposit standing to his credit.

17. If the officer holding an auction thinks that it is desirable to accept for any shop the bid of any person who is not the highest bidder or when the highest bid for any shop is more than the maximum fee determined under condition 8 above, he shall inform the highest bidder and such other bidders for the shop in question as he may select that the decision as to the person to whom the license shall be granted will be reserved for consideration, and such highest bidder and each such selected bidder shall be held to be bound to accept the license if it is offered to him in writing within one month of the date of the auction upon the conditions duly prescribed and for a fee not exceeding the fee bid by him.

18. Each bidder who under condition 17 above has been informed that he will be held to be bound to accept a license bid for by him, if it is offered to him as prescribed, shall within 7 days of the auction pay into the Government treasury an amount which, together with any prior deposit made by him for the right to bid or during the auction, shall amount to one-sixth of the annual fee bid by him, provided that if any sum deposited by the bidder previous to or during the auction exceeds such one-sixth, he shall not be required to make any further deposit, but shall, if he so desires, receive a refund of the amount by which his deposit exceeds such one-sixth.

19. The Collector shall, without delay, submit a special report to the Excise Commissioner regarding any shop with reference to which action has been taken under condition 17, and he shall make his recommendation as to the person to whom, and the fee for which, the license should be disposed of.

20. The Excise Commissioner, after consideration of the recommendation of the Collector, shall order the license to be sold to such person as he may consider to be most appropriate at such fee as may be reasonable.

21. At the conclusion of every auction or of the proceedings, if any, under conditions 17, 19 and 20 above the Collector shall refund to all persons who have not succeeded in obtaining licenses all deposits made by such persons in connection with the auction proceedings.

22. Every person in whose favour a license is sold shall, in addition to the deposit of an amount equal to one-sixth of the annual fee, pay into a Government treasury to be named in his license an amount equal to one-twelfth of the annual fee bid by him before the beginning of the month in which he commences business under his license and at the beginning of the every subsequent month except the last two months of the period of currency of his license, and any amount by which any sum deposited by such person under conditions 7 or 11 and not repaid to the depositor exceeds one-sixth of the annual fee shall be credited, if the person so desires, towards such payments ; the license fee for the last two months shall be accounted for out of the deposit of one-sixth of the annual license fee made by the licensee.

23. When all the shops to be sold by auction have been sold the Collector shall forward to the Excise Commissioner statements in duplicate showing the name of the licensee for each shop and the fee fixed for such shop.

The Excise Commissioner shall retain one copy for record in his office and forward the other for information to the Commissioner of the division. The Collector shall also forward nominal lists of licensees and the shops held by them to the Superintendent of Police in his district.

No. 267.—Notification.—It is notified for general information that the following *conditions* made by the Financial Commissioner of the Punjab under the authority conferred upon him by No. 51 (3) of the rules made by the Lieutenant-Governor of the Punjab under sections 5 and 13 of the Opium Act, I of 1878, and published in Punjab Government notification No. 232, dated the 15th December 1900, as subsequently amended, shall come into force with effect from the date of this notification, *viz.:*—

1. If any person to whom the license for any shop has been finally or provisionally sold by the Collector at an auction held in accordance with the conditions for the conduct of auctions prescribed by the Financial Commissioner and published in his notification No. 266, dated 19th December 1908, in the *Punjab Gazette* fails within the period allowed him to make good the deposit required equal to one-sixth of the annual fee, or if he refuses or neglects to take the license sold to him, the Collector may cancel and revoke the license, and in such case as well as when a license is revoked and cancelled under rule 60 of the rules made by the Lieutenant-Governor of the Punjab and cited above, the Collector may (without prejudice to any other relief to which Government may be entitled against such person) forfeit to Government the amount of the deposit and of any instalment of fee paid by the person whose license is revoked and cancelled, and may make such arrangements for carrying on the vend business for which the license was granted for the unexpired part of the term thereof as he may think fit.

2. In making such arrangements the Collector may resell the license by tender instead of by auction.

3. If in making such arrangements the Collector again calls for fresh bids or tenders, any difference between the amount realised from such fresh bid or tender as may be accepted and the amount for which the license was sold to the person whose license is cancelled may, after the deduction of any such amount of fee as such person may have paid as well as the amount of any security deposit forfeited, be recovered from him by summary process.

4. When any license is disposed on a fresh bid or tender, the conditions applying to auctions in general shall apply, and the Collector shall forward a statement of the result in duplicate to the Excise Commissioner and shall also communicate the change in the list of license-holders to the Superintendent of Police in his district.
